*Dear all,*

*The youngest got an 'English for Kindergarten' certificate a few days ago. ALL those shiny eyes looking at me and waiting to call out their name and give them the award for their great work. Unforgettable.*

*Our fourth number - every year better - is published. Yippy! You were really 'good' this year because there were so many texts I had to read and choose and decide on. Thank you for your imagination. Albert Einstein once said that »imagination is more important than knowledge. Knowledge is limited. Imagination encircles the world.« Keep it in mind.*

*All the tiny heads and those a bit bigger - be curious, imagine, dream and let your dreams come true. If you are still uncertain, let me just remind you of John Lennon's song Imagine:*

*"You may say I'm a dreamer,  
but I'm not the only one,  
I hope some day you'll join us,  
and the world will be as one."*

*Enjoy your holidays!*

*The editor*

# Halloween

A  
L  
S

I like Halloween. It's on 31<sup>st</sup> October. We celebrate it in the evening. At that time it is fall or autumn.

The English children go around the houses. They are dressed in costumes like witches and vampires. When they come to a house they say 'Trick or Treat'.

Children wearing costumes

They usually get candies and things like that. But sometimes they get money. They trade their "salary" for their costumes in bags. The bags usually look like pumpkins. Usually their costumes are made after supernatural figures. In some places some people make haunted houses. The kids like that very much. Usually the houses are very scary and that attracts more viewers. They play each

other pranks too or they tell each other scary stories to scare them. On Halloween they play games. One of them is apple bobbing. In the game the players have to take the apples out of a big basin filled with water. The apples are floating on the water and the players must eat the apples without using their hands. Some of the usual food is 'Candy apples'. They are rolled in caramel. People put a stick into the apple.

At my home we form faces in the pumpkins. We cut out eyes, a nose and a mouth, then we put candles into such pumpkin faces. We light the candles in the evening on Halloween.

Carved pumpkins

Apple bobbing

# St. Patrick's Day

## About Saint Patrick

Saint Patrick is the patron\* and national apostle of Ireland. St. Patrick credited with bringing christianity to Ireland. Most of what is known about him comes from his two works; the Confessio, a spiritual autobiography, and his Epistola, a denunciation\* of British mistreatment of Irish christians.

## St. Patrick's Day

St. Patrick's Day is on 17th March. You have to wear green on St. Patrick's day. That's because green is also the colour of spring, the shamrock, and is connected with hope and nature. The four-leaf clover is traditional on St. Patrick's day, too and that's because it is believed that each leaf of a four-leaf clover represents something different: the first is hope, the second is faith, the third is love and the fourth is happiness.

## Want to be happy on Saint Patrick's day?

- Find a four-leaf clover.

- Wear green (so you don't get pinched).

*Leprechaun, an irish dwarf*

- Kiss the blarney\* stone.
- Catch a Leprechaun\* if you can.

*A four leaf clover, a shamrock*

*Sara Frasn, Class 6*

\*\*\*\*\*

### NEW VOCAB:

- a patron – zavetnik
- a denunciation – ovadba, naznanilo
- a Blarney – a town in Ireland
- a leprechaun – irski škrtac

# The reading badge 2012

FESTIVAL

We have a reading badge every year. All students who like to read, read books and then tell the short story to teacher Barbara Waldhütter. At the end of the reading badge, we have a closure of it, where students get their diplomas for reading all the books successfully. It always happens around March and April and every year one well-known writer visits our school.

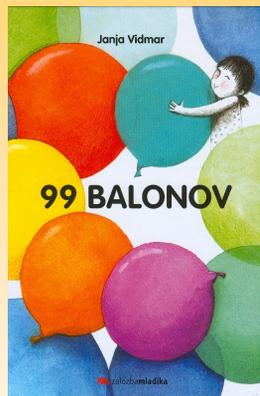

We also had closure of the reading badge this year, on 6<sup>th</sup> April. Day started with making posters. After that, we all went to our House of culture where ceremony started. First, drama club presented themselves with a drama game. After that, fun started.

Janja Vidmar, a well-known and very successful writer visited us.

*Janja Vidmar is a Slovenian writer and screenwriter. She was born in 1962 in Ptuj. Mostly, she writes books for teenagers, but she also has many books for children. She also wrote many screenplays for children. Another book she found for her is translating Slovenian books to other languages. She got many awards, including nomination for Slovenian of the year in 2005. Every*

*teenager and child loves her, because she has so nice and great books.*

First, she didn't even want a microphone, because she was so loud when speaking to us.

*The cover of Janja Vidmar's book for children*

Then she told us some jokes about reading and also called a few of my friends to join her; they had to answer her questions.

When she told us everything, we moved on to handing out diplomas and books.

Students of all classes got them and at the end, students who were reading the books for all 9 years, got another diploma which was a gold one.

After the ceremony, when all other students already left our House of culture, three of us stayed there to interview her. It was really a big fun interviewing Janja Vidmar, because she is so funny and always has a lot of jokes on her tongue. But more about that on the other page.

*Timi Ornik, Class 9*

[http://www.bukla.si/upload/book\\_media/4318/4318/4087.jpg](http://www.bukla.si/upload/book_media/4318/4318/4087.jpg)

**Can you tell us something about your life? Which school did you attend? What do you do, do you have a job?**

I went to Prva gimnazija Maribor. I am a writer. My job is writing stories and novels.

**What was your childhood like?**

Hard.

**Have you got any children?**

One daughter.

**What inspired you to write?**

Nothing, it just happened.

**When did you decide to start writing?**

15 years ago.

**What's your favorite book?**

I really don't have any favourite books.

I like them all.

*Janja Vidmar, a writer*

**What do you do in your free time? Probably read?**

Sport, horror movies.

**What's your average day like? What do you do?**

I spend most of my time chatting on facebook.

**What's the theme in your books?**

Horror stories, taboo themes.

**In year 2008 you got the award Večernica for your novel Pink,**

**is the story based on true events?**

No. Mostly out of films.

**Where do you take characters in your books from (What's their social environment and status)?**

I make them up.

**What's your first book?**

Junaki 5. razreda.

**How do you feel here, in our city?**

"Ful Fajn" - Very well.

**What would be your thought for our readers?**

Do tomorrow, what you don't have to do today. School isn't everything ...

# Robin Hood

**S** Robin Hood

**T** *Robin Hood is a hero,  
because he is a good man.*

**P** *When he saw Maid Marian in the mirror,  
his heart was pounding like Big Ben.*

**E** *Robin was always in green,  
because Sheriff was mean.*

**L** *Sheriff always wanted to attack,  
when Robin came back.*

**T** *He was brave and clever.  
He was stealing from the rich and greedy  
and giving to the poor and needy.*

**L** *In 12<sup>th</sup> century he got a golden arrow.*

*Katja Emeršič, Class 9*

**R** Robin Hood

Robin Hood and Merry men

With his love Maid Marian,

Were very clever and brave

And enemies couldn't put them to  
grave.

When Robin Hood was dying,

He wasn't crying,

He took out his bow

And in the air fired his arrow.

*Doroteja Križan, Class 9*

**R** Robin Hood

Robin Hood was a hero  
and he wasn't looking  
himself in the mirror.

He was happy and fun and he spent  
a lot of time in the sun.

He helped poor people and he had a bow  
because he was an outlaw.

He was fighting against Sheriff of Nottingham  
and he was married With Maid Marian.

He lived in 12th century  
and he used to steal money.

Like him, Robin Hood , was nobody.

*Urška Nudl, Class 9*

# Robin Hood

## A short poem about Robin Hood

There was a brave man,  
living in Nottingham.

He was rich before the crisis,  
when the Sheriff came.

When Sherwood Forest became his home,  
he swore that he won't let anybody down.

He and his Merry Men were always  
having fun, with the rich "scum".

The Merry Men were Little John, Will Scarlet and  
Friar Tuck,

and they were always wearing green so that they  
couldn't be seen.

Then the competition came,  
Robin won and it was fun.

Then the sad times came,  
when Robin died without pain.

And so it happened and so it was the story of a leg-  
end, but nobody knows who he really was.

## Robin Hood

Known as best archer,  
known as a legend.  
But one time,  
known as an outlaw.

Wearing hood,  
and green clothes.  
Who else would that be?  
It could only be  
Robin Hood.

Arrows on the back,  
dagger on the belt,  
bow aimed,  
at Nottingham sheriff.

*Timi Ornik, Class 9*

*Matic Zarnec, Class 9* <http://www.disneyclips.com/imagesnewb/images1wrakr01/cliprobin.gif>

# Albert Einstein

## FAMOUS PEOPLE

I chose Albert Einstein because he was and still is the father of the modern and because he was a genius and he got the Nobel prize in physics.

Einstein was the son of Jewish immigrants. His father was a salesman, his name was Hermann Einstein. Einstein's mother was Paulina Einstein, her maiden name was Koch. His parents married in Stuttgart. Einstein's birth house was near a train station. The entire neighborhood was destroyed at the end of the 20th century. There's a monument on the place where the house was.

In the year 1884 his family moved to Zending. In 1889 he started to visit the gymnasium in Munich. In high school he wasn't bad, but he was obstinate because he learned only the things that have interested him.

He was really good at Maths, Latin and Science. He had problems with modern foreign languages.

In 1894 the family moved to Pavia in Milan. Einstein remained in Munich to finish the final year of high school and to graduate.

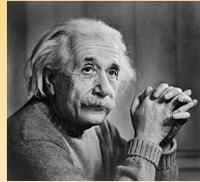

He felt very lonely. From loneliness he quit school and then he went home to his parents.

On the Swiss National Technical High School (ETH) in Zurich in 1895, he performed an admission test.

They advised him to finish the final year of high school.

He obtained his high school canton.

Swiss schools were significantly less rigid than the German schools and Swiss schools are focused on the student's specialities.

Albert Einstein

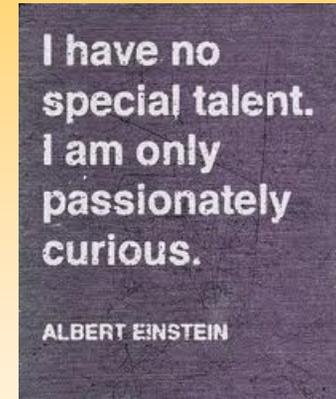

Without doing the exam, he entered the teaching direction of ETH Polytechnic, where he began to study mathematics and physics.

In 1898 he met a Serbian classmate and a friend of Nikola Tesla, Mileva Maric. For teachers, Einstein was an average student and many of the teachers didn't like him because he learnt only the things that interested him. In 1900 he graduated, a year later he received the Swiss citizenship.

In a bank in Switzerland, a detective found 500 previously unknown letters from Einstein.

The letters revealed that he had a daughter with Mileva Marić in January 1902. The daughter's name was Liesl.

# The tale of Peter Rabbit

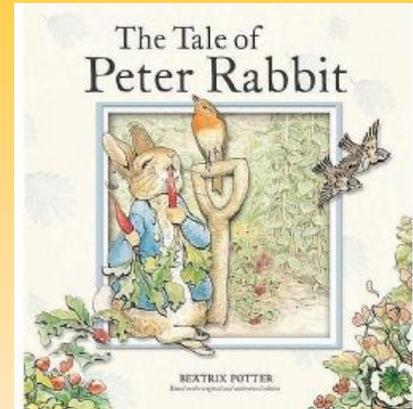

Peter Rabbit was a very naughty rabbit, but very nice. This is the tale when Peter went to Mr. McGregor's garden. One day, when Peter went out, his mother told him: » Don't go to Mr. McGregor's garden.« Peter went to the woods and when his mother wasn't looking, he went to Mr. McGregor's garden. When he was in front of the garden door, he went under the door. Peter saw vegetables and he was very happy. But he had to be very quick, because Mr. McGregor could enter the garden in any second. But Peter wasn't in hurry. He ate slowly. When he ate his last vegetable, he wasn't able to move any more. Then he saw Mr. McGregor and he was very scared. He wanted to sneak out quietly, but Mr. McGregor heard him. Peter ran very fast, but he had a problem to find the door. He hid to an arbour. But Mr. McGregor found him. He was in the can, with ice cold water. Then he escaped. He came home, but he was ill. The next day his friend Benjamin heard that Mr. and Mrs. McGregor won't be at home all day. He went to Peter. He found him behind the tree. That was his home. Benjamin told him what he heard. They went to Mr. McGregor's garden. They took some onions. When they wanted to go home, they looked at the cat and they hid under the basket. Then the cat went on the basket and fell asleep. Benjamin's dad went to Peter's mum. They

talked about where the boys were. Then Benjamin's dad went on the Mr. McGregor's garden. When they saw him they shouted. He hit the cat and the cat ran. Then he hit Peter and Benjamin, too. Then they went home. They came to Peter's home at night. Peter's mum thanked Benjamin's dad and went indoors.

*Tomaž Korošec, Class 8*

Dear mum and Dad,

I live in the Stone Age. It's very different. We don't have a TV or a computer. We also don't have electricity and warm water except when we give it on fire. I have warm clothes and they are waterproof. We live in the mountains. They are high. People are nice. I like them and they like me. We eat different things. Yesterday we had meat; it was cooked on the fire. I am outside a lot. I live with forty people. The oldest person is a man, he is seventy years old and the youngest one is a girl, she is five years old.

I miss you! But I will live for four months here.

Yours

Katja

*Katja Emeršič, Class 9*

Dear Mum and Dad,

I have very nice life here. Sometimes I miss you and sometimes I am hungry when we don't catch any animals. But this doesn't happen very often.

I live in a cave with three girls. Two are my age and one is older than we are.

My life is very different from the one I used to live. Every morning we wake up very early, I think about 5 o'clock and we go and catch animals, so we can eat something. We catch animals in large groups and we have a knife and a bow. What I like about this life the most is that we are like the one. We don't have a television or a computer so we talk to each other every night. We sit near fire and talk. And what I don't like? I don't like that we have to wake up very early. But it is okay. I will get used to it, too.

Okay, that's all I have to tell! =)

Love you =) Bye, bye

Your daughter Urška

*Urška Nudl, Class 9*

*A man from the Stone Age, Ötzi*

# Stone Age

Dear Mum and Dad,

the Stone Age is very primitive. I really don't like it here, because it rains all the time. Fortunately we are wearing waterproof cloaks that are warm, too. Every day something new happens in the village. Yesterday we checked our cows and farmland. The corn grows very fast. I hope we'll eat it in the near future. I learn new things every day. Yesterday for example we were hunting and we caught a deer and some fish. Today we were making some leather boots and some leather clothes that will be very warm when they're done. What I don't like is the hard work. I like the fresh air. The village isn't big, but it's cool.

*Matic Zarnec, Class 9*

Dear Mum and Dad,

I live in the Stone Age. We don't have computers or even electricity here. But there is always something to do. I am in a small village with a rude leader. I sometimes help to hunt animals, but

other hunters don't like me, so I often help to cook and run around telling what's new. I am like a newspaper. I don't like it here, I always have to work. I even didn't have time to write this until now. I don't like other people because they never want to talk. The only thing I like is hunting animals, even if other hunters don't like me. I would love to come back home. See you.

Yours

Timi

*Timi Ornik, Class 9*

Dear Mum and Dad,

I live in the old Stone Age. I live in a cave or a tent, because I move all the time. I hunt animals. I eat their meat, I make clothes, boots and a tent from their leather. I also make tools from their bones. I eat meat and fruits. I like living in the Stone Age, but sometimes life is hard there. Sometimes in winter I'm hungry because there is no fruit and animals to hunt. I hunt ani-

mals with a bow and arrows.

Yours,

Doroteja

*Doroteja Križan, Class 9*

*Stone Age tools*

<http://www.comberps.newtownards.ni.sch.uk/images/stoneage%20tools.jpg>

# Slovenia, my country

## EVERYTHING A PINCH OF MY COUNTRY SLOVENIA

My name is Larisa. I'm 14 years old. I've got one brother. His name is Taras and he's 5 years old. Me and my family live in Slovenia. We live in a house. Slovenia is a very beautiful country, we have got sea, hills, mountains ... Although Slovenia is a quite small country we have many natural, cultural and historical sights. Natural are Logar valley, cave Hell, Potočka zijalka, Čemšeniška mountain, Robanov corner, Dolžanova soteska, Kostanjeviška cave, Peca, Velika planina, rivers Mura and Drava, Triglav, the highest peak in Slovenia, Postojna cave, Cerknjsko lake, lake Bled with island, lake Bohinj, Planica ... In Slovenia we have got some cultural and historical sights, too. Some of them are castles ( Bogenšperk, Turjak, Olimje, Grad, Brdo, Ljubljana, Soteska ...), churches, monasteries and museums. Slovenian national anthem is called Zdravljica and was written by France Prešeren. In Slovenia we have got a lot of different national specialties. They're different because in Slovenia we have got many landscapes. The most popu-

lar are: prekmurska gibanica, ajdovi žganci, sour milk ...

*Larisa Horvat, Class 8*

## My country

I am from Slovenia. In this country there are about 2 million people, but I live in this country with my mum, dad, sister and also my pets. My mum's name is Cvetka and she works in a quite a big shop. My father's name is Milan and he is a plumber. My sister is 21 years old and she works in an old people's home. She loves to help old people. I also said that I have pets. This is true, because I have a dog and two cats.

In Slovenia you can see a lot of natural heritage. If you look for Slovenia on the map, you need to look for a country in a shape of a chicken. You also need to search it in Europe.

Our biggest mountain is called Triglav. In the south-west you can find our sea, but we have to share it with some other European countries. In the north of Slovenia we have a legend about king Matjaž. The legend says that when his beard grows nine times around the desk he will wake up and come to help Slove-

nia when we need him. In the south of Slovenia we also have bears which is unlikely for us.

In Slovenia the most typical food is prekmurska gibanica. We are also known for kranjska sausage.

I could tell you a lot more about Slovenia.

I hope you will visit Slovenia one day.

*Marko Škrlec, Class 8*

*King Matjaž*

<http://upload.wikimedia.org/wikipedia/commons/8/82/Corvinus.JPG>

## My country

My name is Urban Škrlec and I am 13 years old. I am from Slovenia. I have one brother and one sister. My brother's name is Simon and my sister's name is Eva. My mother's name is Elizabeta and she is married to my father Slavko. We live in a small village. The closest bigger city is Maribor. Maribor is the European capital of culture, but only for this year. I am sure that you want to know more about Slovenia. Slovenia is a very beautiful country. We have a lot of natural attractions, like a little lake with island Bled, a mountain Triglav, which is a part of Alps and a Forest Martuljek with a river and a lot of beautiful waterfalls. I think that the best known is Postojnska cave. I saw all of these natural attractions except Triglav. Other attractions are the castles of Ljubljana, Ptuj, Dravograd, Slovenj Gradec and lots of others. We have a sea, too, but the coast is only 46 kilometres long. In Ptuj, there are very popular masks called Kurenti, a lot of people are afraid of them because they are a little bit annoying. I need

to say that Slovenian food is delicious. Slovenian national kinds of food are: potica, prekmurska gibanica and žlikrofi. These are all desserts. Others are kranjska klobasa, ajdovi žganci and lots of others. Drinks made or produced in Slovenia are cockta, Slovenian most popular wine is cviček. Maybe you have heard for a drink called Slovenian vodka, it is new alcoholic drink and if you want to try it when you grow up I need to tell you that you can get it in New York and it is very expensive. That's all about my country.

Greetings from Slovenia,

*Urban Škrlec, Class 8*

## Families in the UK and Slovenia

In a common British family there are two parents and two or three children. Divorce is common in the UK, so a lot of children live with one parent, or in a family with step-brothers, step-sisters and a step-parent. In a Slovene family there are two parents and two or three children. Divorce is also common in Slovenia, so a lot of children live in a single-parent family, or in a family with a step-parent, step-brothers and

step-sisters.

In the UK, most people live in a house with a small garden. But now many people live in a flat, in big cities and in Scotland. People in Slovenia live on a countryside in a house with a garden. In the cities they live in flats or in houses. Families in the UK move a lot. So many people don't live in a town where they grew up, because they go to a university and find a job in other towns. Families in Slovenia don't move a lot. In the UK young people leave home between 18 and 25, because they go to university, get a job or get married. In Slovenia young people leave their home between 25 and 29, because they go to university, get a job or get married.

Old people in the UK don't live with their children. They have their own house or a flat or they live in the old people's home. In Slovenia old people live with their children, but some old people don't live with their children. Half of families in the UK have pets. Cats are the most popular. They have also dogs, hamsters, birds and fish. In Slovenia three quarters of families have pets. Cats and dogs are the most popular. They also have hamsters, birds and fish.

*Tomaž Korošec, Class 8*

# My skinny friend

## My skinny friend

Dear Tonja,

Slim people are a big problem not for us, but for themselves. Food gives us strength and energy, and that's exactly what our body needs. I, as well, believe that your friend is anorexic and I have a very good solution for it.

First, show her some pictures of anorexic people and ask her if she thinks they are slim. If she says yes, then tell her she is almost the same but if she says no then there is bigger problem. I don't know how you should help her, but just speak with her about it over and over and she might stop with it.

Yours sincerely,

*Timi Ornik, Class 9*

## My skinny friend

Dear Tonja,

You think that your friend is skinny and slim and that she's anorexic. Maybe you're right and in this case I can't help you because I'm not a doctor, but you can help your friend by telling her mother to go to the doctor with her. You can say to her mother that you suspect that her daughter is anorexic; maybe her mother noticed it too, but she didn't go to a doctor with your friend because your friend said to her that she's all right. If you

really think that she's anorexic you should tell her mother. You could tell your friend that she should go to psychiatrist because only he can find out if your friend is mentally ill. Anorexia is a disease that's produced in the patient's head. If she has anorexia she'll probably get a special treatment that will help her with her diet and similar.

I hope my advice was good and I hope that your friend will get well soon.

Your friend

*Matic Zarnec, Class 9*

And some further advice for better health ...

## You and your body

Do not spend all the time in front of TV and computer.

Do a lot of exercise and go out into the fresh air.

Eat vegetables, fruit and healthy food. Don't eat fast food and junk food because it is unhealthy.

Do not start smoking. Smoking is bad for your health.

Protect your skin when it is hot: stay in the shadow, wear sunglasses and a hat.

*Mojca Toš, Class 9*

## You and your body

Don't spend all your time in front of TV or computer. You must run and do something outside. Help parents when they have a lot of work.

You must eat fruit, vitamins and vegetables. Don't eat fast food or junk food.

Don't start smoking. It's hard to give up smoking, the best for you: do not smoke.

*Smoking is bad for your health.*

You must protect your skin. In summer you must put on the sun cream. Don't sunbathe from 12.00 to 2.00 p.m. You must wear sunglasses and a hat to protect your head.

You must wear good shoes. Don't wear shoes which are too tight or too loose. As a result you will have problems in the future.

*Aleksej Gajser, class 9*

<http://www.contracept.org/files/images/no-smoking-300x3001.gif>

Dear Tilen,

You shouldn't eat so much fast food. It's bad for your body. Fast food contains fat and not carbohydrates. You should eat more vegetables and fruits or carbohydrates. You should eat fast food two times a month and not three times a week. You will be fat if you eat much fast food. When you are fat you will have problems and you will not be able to walk. You should listen to the teacher at school or you will have problems. You need to have normal food, not fast food. You need breakfast and lunch and dinner. You need carbohydrates, vitamins and minerals in your body so that your body can regenerate and work perfectly. You need to train your body and not just sit in front of TV or computer. Best wishes,

*Denis Bencek, Class 9*

Dear Tilen,

I've heard that you're eating fast food and you all ready know that it's unhealthy, but you don't mind that. Probably you've learned that fast food is very unhealthy because it contains fats, salt and similar things, but maybe you didn't know that fast food can make you very ill. If you eat too much unhealthy food you'll become fat and you're heart won't work properly and as the result of that you can get a heart attack and you can die. Many people that are fat and eat unhealthy food live in average 10 years less, than people that do sport and eat healthy food.

Even though you're not ill yet, you can get ill in 5 years if you don't change your diet. For example, instead of eating fast food you can eat more healthy food like vegetables, fruit; I know that you can't change your diet in 1 day because you are used to this diet now, but if you eat more vegetables and fruit every day you'll be able to change your diet in a few months. Still your diet should contain proteins, a bit of fat and carbohydrates and last but not least vitamins and minerals. You can find carbohydrates in rice, bread ... vitamins and minerals are in vegetables and fruits. You can eat meat for proteins and fat.

*Fruit and veggies*

The other thing that you should do is sports. You can go cycling, rollerblading ... The worst thing you can do is to sit at home and watch TV all day long.

The energy that you get from food is very important because it keeps your body alive. The energy that you don't use will change into stomach fat. This means that you'll be fat if you don't do sports. Scientists found

out that fifteen minutes of sport a day is enough to burn your energy. So I recommend to you that you do sports because it will keep you in a good shape and you won't get sick so often. I hope that I helped you with this letter. Your friend

*Matic Zarnec, Class 9*

Dear Tilen,

Fast food is a big problem. Yes, I agree it's very delicious, but not good. Everyone likes to eat fast food, but they it doesn't give us all that we need and too much of what we don't need so. His problems didn't show up yet and maybe his body got used to it, that's what I believe, but at later ages he will have problems, I am sure of that.

There isn't really anything to do, but just talk to him more often and he might drop fast food. Maybe it would be best for him not just to stop eating it, but every month less. As an example, he eats 3 hamburgers per week now, next month he shall 2 and then every month less, until you come to let's say 1 hamburger in 1 month. Keep up the good work with telling him it's unhealthy.

Best wishes,

*Timi Ornik, Class 9*

English Competition is a competition where students of 9<sup>th</sup> class from whole Slovenia compete in the knowledge and understanding of English.

This year, I am also in 9<sup>th</sup> class and I participated in English Competition as well. Next to me were Nejc Planer, Matic Zarnec and of course our mentor and teacher Aleksandra Žnuderl.

We were preparing for the competition since September. We had to read a book from Edith Nesbit: *The Railway Children*. The book talks about three children, whose father was imprisoned, accused of being a spy and selling secret information to other countries. Because their father was the only source of money, family, including 3 children, Roberta, Peter and Phyllis had to move from their beautiful house to an old cottage near the railway. The three Chimney's children, as people called them, found many new friends and at the end they even found out that their father shouldn't be in prison. An old gentleman, children's friend, "rescued" father and brought him back home. Then they lived happily again.

The novel wasn't long, but it had unknown words for us, which we had to learn. We were also doing a lot of old competition tests.

Soon, school part of competition was right through the next door. We were all nervous and couldn't wait to see what the test would want us to do. But it came out quite good. Me and Matic had the same amount of points, and Nejc had one less, which stopped him on going to the regional part.

*The Railway children*

I can say that we were very lucky we got in. After that, more work was ahead of us. We didn't need the book for school competition, but now, in a regional one, we did. So we went through each chapter and read it slowly and carefully, writing out every word that was unknown to us and then checked it in the dictionary.

Then, the regional part was around the corner, quite too fast. With Matic, we went to Maribor, to the school where competition was rolled out. Matic was very confident, but I wasn't. At the end, it came out just the opposite, I classified for the national part of competition, while Matic wasn't so lucky.

Even more work began now, but I didn't have any exams or anything at school at this time. I have talked to our mentor and we decided to work only on writing, as in last part of competition you only had an exam on writing. I can say I wrote so many texts then that I didn't write in my whole life together.

<http://1.bp.blogspot.com/-gU801mB200k/ThdbBNKXkMI/AAAAAAAAADQY/GPxJjnwW-1A/s1600/railwaychildren.jpg>

# English competition

But this was a very good practice for me and it came out very useful. The National competition was in Ptuj, in Oš Borisa Kidriča. Me and my mentor Aleksandra Žnuderl went inside and looked for a classroom. It wasn't hard to find it, as all classrooms, where the competition was, were in the same corridor. We have waited there for about 30 minutes. Then there were some speeches and at the end 'good luck' to us all. I went to my classroom and my mentor went to the gathering room for mentors. Then the competition started. First, I was quite surprised when I saw what I had to write. It was not difficult at all. We had 90 minutes of time to write, but I finished in merely first 30 minutes, then I checked everything like 10 times again before leaving the classroom.

When we got results, I was very surprised, I missed only 2 points out of 30. I got a gold medal. I was very happy. Every teacher in our school congratulated me and even when I got home, I was overwhelmed on my mobile phone.

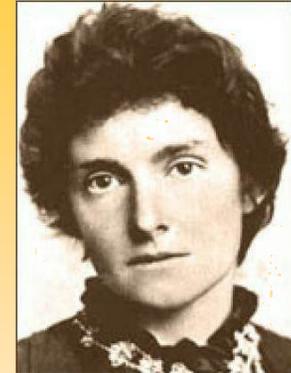

I really worked hard, but nothing would happen without my mentor Aleksandra

Žnuderl, and I thank her for that. She had to prepare all sheets of paper I was filling out, gave me the further instructions and told me what to learn and what to do.

At the end, I want to say good luck to other students who will also compete in English Competition.

*Children waiting for a train*

*Edith Nesbit, the writer*

## Climate

Dear Tom,

Today the weather isn't very good here in Slovenia. It's rainy today. We have spring now and it's usually like today. But not the whole spring.

We have very different weather in summer and winter. In summer it is usually hot, someday even extremely hot, but sometimes we have bad storms with hail. In winter it is snowy and cold. But last years we didn't have a lot of snow and Christmas was green and wet.

People here live in houses, apartments and in flats. But in last years many people bought apartments because they don't have enough money to build a house and take care of it.

We wear clothes depending on weather. If it's hot we wear T-shirts, shorts and sunglasses and we spend a lot of time outside. In winter we wear trousers, boots, pullovers and a winter jacket.

In the past people ate more home food, like pork. They killed a pig and they

had food maybe for two months, but nowadays people simply go to a supermarket and buy food there. But not all of them, some have farms at home and they have home food.

I'm not very optimistic about our country in next 50 years. I think that the global warming will be harder and harder, because it doesn't seem that people think about problems that we have because of global warming. And it's sad that important people, like politicians, who have power to change it, don't have temper to say something and change anything.

*Urška Nudl, Class 9*

## Climate

Dear Tom,

Our countries have a very different climate. In Slovenia, it's quite cold in winter, it goes down to  $-10^{\circ}\text{C}$  and in summer it goes up to  $38$  or  $39^{\circ}\text{C}$ . I know it's quite different than in your country, because you have summer when we have winter, and Santa Claus is in shorts. I always laugh when I say or hear that.

In winter, people wear long trousers, a shirt and a thick jacket, to keep them warm. In summer, people are in shorts and T-shirts mostly. Some are sometimes without anything on their torso.

It's very nice now and I couldn't live in summer all the time, there needs to be winter, or I would "burn out", to say like that. But in future climate might change, weather might change, and we might even have summer all the time. I wouldn't like it. I am a very "hot" person and I am cold very few times in the year. We can't even predict what changes will happen, for now. But I hope there won't be summer all the time, nor winter. I hope weather will be the same as in spring the whole year. It's not too hot and not too cold in spring. It would be best to just be it like it is now.

*Timi Ornik, Class 9*

## Climate

The weather in Slovenia is very nice most of the year. We have bad weather only in spring and sometimes in autumn. In summer weather is very nice and warm, sometimes even hot. Summer is my favorite time of the year, because sun is shining all day long. I also like winter, but not if it is too cold, because nobody likes that. In winter there is usually a lot of snow, but I was very disappointed this year, because there was very little snow.

In summer people usually wear shorts and a T-shirt, but in winter they use warmer clothes, like sweaters.

Our houses are built normally, this means that we don't have very small houses or very big houses and our roof doesn't need any special angle.

I believe that weather will change drastically and it will be a lot hotter if we don't start watching what we do, so I hope that people will start taking care

of our environment until it's not all too late.

*Nejc Planer, Class 9*

*How the climate affects our lives.*

# Australia

## PLACES

### Some first information

**Official name:** Commonwealth of Australia  
**States:** South Wales, Victoria, South Australia, Queensland, Tasmania, West Australia  
**Languages:** English and other European languages (Greek and Italian)  
**The capital city:** Canberra  
**The biggest city:** Sydney

### Position

Australia lies between the Indian ocean and the Pacific ocean.

It lies southern than the equator.

Australia is a lonely continent in the ocean. It is the smallest continent in the world.

### Surface

Australia has many deserts, like Desert Victoria, Simpson's desert ...

It also has a lot of rivers, like Darling, Murray, Murrumbidgee ...

### Ayers Rock – Uluru

Ayers rock or Uluru is a very popular, but solitary mountain.

It can be different colour in different weather. We can see just a small part of it, because the most of the rock is under the ground.

*Ayers Rock, Uluru*

## ANIMALS

In Australia there are many special animals. These types of animals can be found only in Australia and in zoos. These very special and pretty animals are: kangaroo, koala. Other animals are parrots, snakes ...

### A kangaroo

A kangaroo is an animal which has got very strong legs and a tail. It can jump very far and it is very dangerous. It is very interesting that it carries its babies in the bag on his belly.

A kangaroo is a very strange name for the animal in Australia. Here is an interesting story why this animal has this name: when James Cook and his men discovered Australia, they saw a very strange animal ... They didn't know the

name of that animal. They asked the aborigines about it (people who lived there). They said: „Ken-gu-ru.“

In English this means: „I don't understand“. James Cook and his men thought that this animal's name is a kangaroo ... So today this animal is called kangaroo.

*A kangaroo*

### Koala

A koala is a vertebrate animal which lives on the eucalyptus trees. It looks like a teddy bear. A koala is an endangered species, because people destroy forests and build new cities.

[http://www.akropola.org/App\\_Upload/image/zanimivosti/Uluru/Uluru-6.jpg](http://www.akropola.org/App_Upload/image/zanimivosti/Uluru/Uluru-6.jpg)

<http://www.animalpictures1.com/r-kangaroo-82-animation-kangaroo-1400.html>

## Dangerous in the sea

There are very beautiful beaches and this is the reason why tourists like to go on holidays to Australia. The sea is very warm and that is favourable for sharks.

People like surfing there and usually sharks exchange people for seals, because they have special suits and boards. Those people can not escape to the beach. They often have bad injuries. However, sharks aren't so dangerous. They attack only if they think that you are a seal or if they are very hungry.

## Beautiful part of the sea - Great Barrier Reef

Great Barrier Reef is a very beautiful natural sight. It is the biggest coral reef in the world. It is one of the seven natural wonders of the world. There are many divers there, too. Anyway, the Great Barrier Reef is very wonderful, but it is a big problem for the ships that can not go across the great barrier coral reef, but they must go around, so the biggest cities are on the south of Australia.

## Sydney

Sydney is the biggest, but not the capital city of Australia. It is the most popular city in this continent. More than 4 million people live there.

It is very tourist city with many sights. The most popular are Sydney Opera House and Sydney Harbour Bridge. In a year 2000 there were summer olympics.

## Economy

It is a very developed country. People are concerned with farming and industry. Although there are many deserts, Australian people have farms there. They grow sheep, which are called merino. They have very qualitative wool. They export wool, sugar ...

In Australia there are many natural riches, too. There are many ores there: iron ore, gold, silver, diamond. There are also many natural sources, like coal, oil, natural gas.

## Aborigines

They had lived in Australia before James

Cook and his men discovered them. They were hunters. They have lived there for 40 000 years.

They came to Australia from Asia. They have got dogs. This type of a dog is called dingo. They have a very old culture. When James Cook came to Australia they hid under the Ayers rock.

## Boomerang

It is a flying weapon or a sport equipment. In history it was made of wood or bones. However, today it is made of plastic. The oldest Australian Aboriginal boomerangs are ten thousand years old. They were useful for hunting. The interesting about it is that when you throw it, it comes back.

*Vesna Zemljič, Class 8*

# American Pancakes

## E Ingredients:

### I (What do we need?)

- four pots of flour
- two eggs
- four pots of milk
- baking powder
- four small spoons of sugar
- one small spoon of salt
- oil.

## Y Instructions:

### (How to do it?)

We need two bowls. In one bowl we put flour, then add salt and baking powder\*, we mix that. Then we need one more bowl to separate\* yolks\* and egg whites\*. We crack two eggs. We mix egg whites into snow. In the bowl with yolks we add sugar and milk. We can mix that with a spoon or with a mixing machine. Stir it for about 5 minutes till everything is smooth. Add the mixture with the flour, salt and baking powder. Stir it again, but a little bit longer. At the end add the egg whites (the snow) and mix everything together. Now we need a pan. We heat some oil in the pan, then we pour a bit of the mixture into the pan in the circle. American pancakes

must be a little bit thicker than normal European ones. We fry them until some bubbles are shown. We continue with frying the pancakes. We can cover them with strawberries, berry or chocolate syrup. While eating American pancakes you can drink juice.

ENJOY!

\*\*\*\*\*

### NEW VOCAB:

baking powder – pecilni prašek  
separate – ločiti  
yolk(s) – rumenjaki(i)  
egg white(s) – beljak(i)

American pancakes

Tjaša Rojht, Class 7

<http://img4-1.cookinglight.timeinc.net/i/2005/11/0511p248-buttermilk-banana-pancakes-pomegranate-syrup-1.jpg?400:400>

## EKLERS

### Ingredients:

250 millilitre milk  
100g margarine or butter  
1 packet of vanilla sugar  
some salt  
150g flour  
120g sugar  
4-5 eggs  
8 spoons of cooked coffee  
500 millilitre cream  
70g sugar for topping

### Filling:

Whip\* cream, add some cooked coffee for better taste and some sugar if you want to.

### Preparation:

Boil milk, margarine, vanilla sugar, salt and sugar in a pot. Remove it from the heat. Add the flour to the hot mixture and stir the dough until we get a dumpling. Move the dough in a bowl. Add eggs (each egg is mixed in completely before the next is added). Then place the dough in the baking pan

for muffins.

Bake it at 180 °C from 18 to 20 minutes. Then cut eklers on halves. Fill them with the filling. Put both halves together. At the end sprinkle\* the eklers with sugar.

*Enjoy!*

*Eklers*

\*\*\*\*\*

*NEW VOCAB:*

to whip – stepsti (smetano)  
to sprinkle – posuti

*Polona Kren, Class 7*

# Thumbprint Garden T-Shirt

**S** These personalized T-shirts – the girls can put their own signature flower on one another's teens – will be the hit of any party.

## **F T** Materials

**C R A** T-shirts  
cardboard  
fabric paints  
paper plates  
green fabric marker

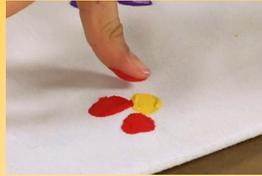

## **I** Instructions

Set up your decorating station by first cutting a piece of cardboard to fit snugly\* inside each shirt, separating the front and the back layers. Line up the shirts on your worktable and squirt\* small puddles\* of fabric\* paint onto paper plates.

For each shirt, have the girls each dip\* a pinky finger into a puddle of paint and press it onto the T-shirt for a flower center.

Next, have them each dip a thumb into a

different colour of paint and press it onto the shirt around the pinky print to make petals. Leave the cardboard inside the shirts while they dry and refer to the fabric paint bottle for washing instructions.

Use a fabric marker to paint stems and leaves.

Finally, have each guest use the fabric marker to write her name under her thumbprint flower on each shirt.

\*\*\*\*\*

## **NEW VOCAB:**

snug(ly) – zavarovan, da zavaruje  
to squirt – brizgati, curljati  
a puddle – luža  
fabric – blago  
to dip – potopiti, pomočiti  
a stem – steblo, pecelj

Sara Frasn, Class 6

<http://upload.wikimedia.org/wikipedia/commons/4/43/Easter-Eggs.jpg>

Ich habe mir den Pfau zur Beschreibung ausgewählt, weil es buntes Gefieder hat und ein wirklich schönes Tier ist.

Der Pfau stammt ursprünglich vom indischen Subkontinent. Da lebte er in hügeligen Geländen im Dschungel, besonders in Wassernähe. Heute leben die Pfauen auch in Europa als Farmtiere. Der männliche Pfau hat einen blauen Kopf und Hals. Am Kopf hat es einen Schnabel und einen schwarz-weißen Umriss mit braunen Augen. Sein Gefieder ist schwarz-weiß und braun. Seine Beine sind klein und grau. Der Schwanz ist der schönste Teil seines Körpers. Aber wenn er sich aufplustert, öffnet er sein buntes Gefieder, die in grünen, blauen, gelben, roten und goldenen Farben strahlt. Der weibliche Pfau hat aber einen schwarzen Kopf, graues Gefieder, dunkle Beine und einen kurzen Schwanz. Es gibt auch weise Pfauen.

Der Pfau ist ein Allesfresser. Die Pfauen fressen Samen, Insekten, Früchte, kleine Säugetiere und Reptilien. Sie füttern auch kleine Schlangen. Bei der Jagt müssen sie auch auf die großen Jäger aufpassen, dass die sie nicht fressen. Tigern und Leoparden sind ihre größten Feinde. Normalerweise trinken sie Wasser. Sie essen und trinken mit dem Schnabel

Dei Pfauen gehören zu der Familie der Hühnervögel. Trotz ihrer Größe und des

langen Schwanzes können auch männliche Pfauen fliegen. Bei Gefahr erheben sie sich in die Luft, flüchten ins Gebüsch oder suchen auf einem Baum Schutz. Auf Bäumen verbringen sie auch die Nacht, um vor Raubtieren geschützt zu sein. Pfaue können aber nicht schwimmen, aber jedoch haben sie einen starken Ruf um die Weibchen zu beeindrucken

Pfauen leben in kleineren Familienverbänden, die aus einem Hahn und mehreren Hennen mitsamt den Jungvögeln bestehen. Die Fortpflanzungszeit ist wetterbedingt, von April bis August. Die Hennen suchen einen geeigneten Platz, um ihre Eier abzulegen. Sie bauen ihr Nest am Waldrand in dichtem Unterholz. Ein Gelege besteht gewöhnlich aus 4-6, maximal 8 Eiern. Die Eier des Pfaus sind hellweiß. Die Hennen sitzen auf den Eiern für eine Dauer von 28-30 Tagen. Wenn sie aber durstig und hungrig sind verlassen sie das Nest. Wenn die Zeit gekommen ist schlüpfen die Küken. Auf der Oberseite ist ihr Gefieder etwas dunkler. Nach einem Monat bekommen die Küken ihre Krone und werden erwachsen. Sie sterben in 5 bis 6 Jahren. Es gibt auch andere Arten.

Der Pfau symbolisiert die Schönheit, Reichtum, Liebe, Leidenschaft aber auch Unsterblichkeit, Arroganz und Eitelkeit. Nimmt seit jeher eine besondere Stellung im Tierreich ein. In Indien ist er neben

seiner Stellung als heiliges Tier gleichzeitig auch der Nationalvogel. Der Pfau hat auch einen Sternzeichen.

## Ein kleines Quiz

1. Wo lebt der Pfau?

- a) in Amerika
- b) in Afrika
- c) in Indien

2. Was ist der Pfau von der Nahrungsart?

- a) Pflanzenfresser
- b) Allesfresser
- c) Fleischfresser

3. Hat der Pfau ein Sternzeichen?

- a) Ja.
- b) Nein.

*Der Schnee kommt, die Schneeflocken fallen.*

*Es ist schön wenn die Kinder an den Schnee*

*Freude haben.*

*Wir können Schlittschuhlaufen und einen*

*Schneeengel machen,*

*mit den Schlitten fahren und dabei lachen.*

*Draußen ist es kalt und weiß,*

*den man braucht nicht nur Hitze*

*sondern auch Spaß im Schnee und Eis.*

*Es ist still und die Bäume haben keine*

*Blätter, aber Weihnachten und Silvester stehen*

*vor der Tür, dass ist schon besser.*

Tadej Roškarič, 6. Klasse

## Frühling

*Die Natur erwacht, die Vögel singen,*

*man kann mit vielen tollen Sachen*

*draußen spielen.*

*Die Bäume bekommen Blätter, manche*

*blühen, sogar das Wetter ist jetzt schöner.*

Tadej Roškarič, 6. Klasse

# Meine Freizeit und meine Schule

## Meine Freizeit

Ich habe viel Freizeit, ungefähr 3 Stunden: von 3 Uhr bis 6 Uhr nachmittags. Aber wenn ich lernen muss, dann habe ich keine Freizeit. Mit Computerspielen verbringe ich meine ganze Freizeit. Ich bin ein sehr großer Fan von Computerspielen und ich bin auch ein 'Technikfreak', das heißt dass ich Computer sehr mag. Wenn ich kann, dann spiele ich Computerspiele um die 5 Stunden. Meine Meinung ist, dass Computerspiele nur etwas für die Jungs sind, denn Mädchen wissen nicht wie man mit Computern umgehen muss. Viele Mädchen wollen auch nicht Computer spielen, weil sie denken dass die Computer doof sind. Mein Lieblingsspiel ist 'LOL- League of Legends.' Das ist ein Spiel, das über das Internet gespielt wird. In diesem Spiel kannst du Monster töten und andere Mitspieler besiegen. Du kannst auch einige Punkte bekommen. Das ist das beste Spiel von allem.

*Matic Zarnec, 8. Klasse*

## Unser Klassenzimmer

In unserem Klassenzimmer sind viele Schränke. In den Schränken sind Bücher zum English und Deutsch zulernen und andere Sachen. Die Schränke sind grau,

grün und braun. Auf einen Schrank ist eine grüne Pflanze und die Vase ist weiß und daran sind Blumen gemalt. Links von den Schränken an der Wand ist eine weiße und rote Auszeichnung. Die Wand ist gelb. Im Klassenzimmer ist ein weißes Waschbecken und ein rosa Seifenspender. Da an der Wand ist ein weißer Thermometer und eine weiß - gelbe Wanduhr. Unter der Uhr ist eine weiße Tafel und links ist eine weiße und fortgeschrittene Tafel. Wir haben auch einen schwarzen Fernseher und einen grauen DVD Player. Unter dem Fernseher ist ein Computer. Links von dem Computer sind viele Fenster. Die Fenster sind durchsichtig. Wir haben sechsundzwanzig graue, braune und grüne Tische und die Stühle sind braun, grün und grau. In der hinter rechten Ecke ist eine gelbe und ein bisschen orange Tür. Neben der Tür sind weiße Lichtschalter. Im Klassenzimmer sind elf graue Lichter.

*Tadej Roškarič, 6. Klasse*

## Unsere Schule

Unsere Schule heißt OŠ J. Hudalesa Jurovski Dol. Wir haben viele Klassenzimmer. Für jedes Fach eins. Die

Treppen helfen uns, zu den Klassen in die höhere Stockwerke zu kommen. In den höchsten Stockwerk haben wir eine Bibliothek und einen Computerraum. Für die Kinder im Kindergarten haben wir einen Schulhof. Aber die Schüler die in unserer Schule unterrichtet werden, spielen viel auf dem Spielplatz. Wir haben auch eine Turnhalle für den Sportunterricht. Viele Schüler haben Mittagessen in der Schule, im Speisesaal. Wir haben keine Aula. Alle Aufführungen finden im Speisesaal oder in der Turnhalle statt.
