Dear all,

my first big job is done. I am a Teacher now; the one with a capital t, because my first farewell dinner-party with all the rainbow colours' pupils is successfully behind me :)

Our fifth number is here again. Yippy! Although Late ...better late than never, right? Thank you, dear pupils, for all the efforts you have put in writing, re-reading, changing, updating your texts. We have improved a lot. You did a great job. What did Shakespeare think of greatness?

"Be not afraid of greatness: some are born great, some achieve greatness, and some have greatness thrust upon 'em."

This school year has almost finished, but the best is on its way – summer holidays. Be creative this summer: first, of course, sleep, sleep, sleep to get back the energy you lost during the last month at school, but later surprise your parents with lunch, do some crafts, make yourself an ice cream from fresh fruit and enjoy your holidays, because wanted it or not September is on its way, too :)

Pancake day

When is Pancake Day?

Pancake Day (also known as Shrove Tuesday) takes place 47 days before Easter Sunday. Because the date of Easter Sunday is dictated by the cycles of the moon, Pancake Day can occur any time between February 3 and March 9. In 2013 it takes place on February 12.

What is Pancake Day?

Shrove Tuesday marks the last day before Lent, traditionally a period of abstinence, associated with clearing your cupboards of goods such as sugar, fats and eggs. It's commonly known as Pancake Day because it represents a good opportunity to use such ingredients ahead of the fasting period.

It is celebrated throughout the UK by cooking and eating pancakes - a last feast before the fasting and self-denial of Lent. In some places pancake races are held, where participants run along tossing a pancake as they go.

In Olney, the Pancake Race tradition dates back more than 500 years to 1445. A woman engrossed in using up cooking fats (forbidden during Lent) was making

pancakes. Hearing the church bells ring calling everyone to the shriving service, she grabbed her head scarf (required in church) and ran to the church **with a skillet and pancake in hand and still wearing an apron.** In following years, neighbours got into the act and it became a race to see who could reach the church first and collect a "Kiss of Peace" from the verger (bell-ringer.) The kiss is still the traditional prize

Thanksgiving day

This holiday is celebrated in the USA. Thanksgiving is a holiday on which we thank to the pilgrims that they have colonized on the American ground. The pilgrims had a hard life, because it was cold in winter. They came from England. They had some conflicts with the Indians. They banished them from their homes. They were enemies.

Today, the Americans thank to the other people for all things they have already done for us. On Thanksgiving we prepare special dinner and come together with our family. We can invite some relatives, too. On that holiday some traditional food such as chicken and some vegetables is eaten. I think the first Thanksgiving was on 1914.

Mother's day

S *Mother's Day changes every year. It is exactly three weeks before Easter Sunday and usually falls in the second half of March or the beginning of April.*

L
A
V *Mother's Day was celebrated on 10th March in 2013. Children usually pay tribute to their mothers and thank them for all their love and support. They take cards and gifts to her and may treat her to brunch, lunch or high tea in a cafe, restaurant or hotel.*

Common Mother's Day gifts are cakes, flowers, chocolates, jewellery, and luxurious clothing.

People who cannot visit their mothers usually send gifts or cards to them. In Slovenia we celebrate it on 25th March.

Robin Hood

Robin Hood the good,
was a hero,
who took from the rich
and gave it to the poor.
He and his Merry Men
wandered in the Sherwood forest,
they were wearing green
so no one could see them.
He was married with Maid Marian.
His enemy was Sheriff of Nottingham,
an evil man,
who wanted to catch Robin Hood,
but he couldn't,
because Robin Hood
was quick and sly
and he also wore a disguise.
He took the golden arrow
from the contest
and ran into the forest.

When he was dying,
he shoot the arrow into the sky
and he went into the sky.

Tomaž Korošec, Class 9

He was a legend,
he was rich,
he was clever
as a little witch.
He always stole money,
and that's funny.
He had a golden arrow,
but he didn't know what is a barrow.
When he was lying,
he was dying.
He was dead,
but not in his bed.

Anja Lorber, Class 9

He was a hero,
like King Arthur in the mirror.
He had a life
with his wife.

He had arrows and a bow,
So he was an outlaw.
When Sheriff had a gun,
he always ran.
Robin was in green,
So he always won.
When Sheriff was in the grave,
he was safe.
An the end Robin Hood died,
And everyone were asking: Why?

He is a revenger, an outlaw,
looking for justice.

Taking from the rich, giving to the
poor.

All he cares are honor and justice.

He is paying a tax, that was never
given.

Only he knows the reason.

He makes poor people cry from the
happines,

children run and scream, give them a
hope for better life.

He is a hero for everyone, he makes the
sun shine.

He makes the king's guard life in a
fear.

Who would mind to be him,

to be a man, who all respect,

to be an archer that is known to all.

To be a man with no name, to be a
legend.

To be Robin. To be Robin Hood.

Urban Škrlec, Class 9

Once upon a time there were lands full of crime. They needed a hero of good called Robin Hood. He was dressed in green that he won't be seen. He had a crew, power of ten men and they were named the Merry men. He stole money from the king then he was gone with a swing. He didn't use the money for his own but gave it to them who were poor. He hated the Sheriff at most but Robin was fast like a ghost. The Sheriff had a raguish look but the Merry men captured what he took. His bow was ready and arrows were sharp. He wore disguises what was smart. He was ready to fight to do that what is right.

Nina Terbuc, Class 9

Robin Hood is a strong,
brave British hero.

We know a lot about him, because in the past
he was very important.

His country was famous in 12th century.

His friends were Merry Men,
because they were always Happy.

So Robin, Robin Hood was also

famous archer, with the band of outlaws.

Amadeja Lavrenčič, Class 9

*Robin Hood lived in woods
He helped poor and get high score*

Won a golden arrow

Even if the road was narrow

He was an outlaw

And he wasn't slow

He had a lot of fun

Even if he didn't have gun

Sheriff stole his Land

But Robin Hood still had his hand

He used to steal

That people could have meal

His arrow kept flying

While he was dying

He had friends

And also songs have ends.

Spring

S P R I N G P O E T S L I T T L E

The snow is on the trees, and I miss the spring. The sun isn't shining and I am sad, but snow is still on the grass. Cherries aren't red, so I can't pick them from the trees. But the saddest is that I don't like this spring.

Živa Waldhütter, Class 7

It's spring.

. The sun is shining,

the trees get leaves,

the snow leaves,

it's warm,

the animals are born.

Now it's April and it's raining outside,

and it's boring inside,

but if the sun is shining when

it's raining

there comes a colorful rainbow

and the colours are in a row

and the wind finishes to blow.

Kristjan Mihael Reisman, Class 7

Animals are happy because the winter is gone, birds sing songs about their love. The sun shines and people have picnics. Green grass blossoms, rabbits dye eggs.

Beside the forest there are snowdrops and they represent the beginning of my birth-day.

Karin Najdenik, Class 7

Early snowdrops representing spring

Snow is melting
spring is coming,
birds are flying trough the sky.

I am happy,

I can dance,
I can lie on the ground.

I chose them because I like their music. I have been listening this group for 4 years. I first heard them on a TV soap opera *Sortilegio*, where they were singing the cover song. Since then I have started to explore everything about them.

Il Divo is a multinational operatic pop vocal group. They were formed in United Kingdom by music manager Simon Cowell. That happened in 2004. This is a group of four male singers: Carlos, David, Urs and Sebastien.

CARLOS MARTIN

Carlos is a spanish singer. He is 44 years old and he is the oldest one in the group. Before Il Divo he was singing in a opera. In Il Divo he is a baritone and tenor singer.

DAVID MILLER

David is an american tenor. He was born in San Diego in 1973. Like Carlos he was also singing in a opera before. Along his wife he sang a song - Time to say goodbye - and now he is singing it with Il Divo.

URS BUHLER

Urs is from Switzerland and he is a classical tenor singer. He plays many instruments, like: the piano, the violin, the drums, the guitar and the clarinet. Before Il Divo he was singing in a different choirs.

SEBASTIEN IZAMBARD

He is the youngest one. He is 39. He was born in France and in last 5 years he has lived with his wife and 3 kids in London. He is the only pop singer in the group. He also has a solo album

The group recorded six albums in 8 years. The first one was called Il Divo and for the first hit song (*Regresa a mi*) they have recorded a video in Slovenia in Piran.

Every two years they go on a tour around the world. Last september they were in Ljubljana again and they have said they are coming next year again.

Giraffe

EVERYTHING OF PINCH A

I chose a giraffe, because it is one of the most interesting animals on the Earth. There are many reasons for this.

Giraffes live in the wild. We can find them in savannas of Africa. Giraffes live in groups but they don't stay together all the time.

Giraffes are giant animals. They can grow up to 6 meters tall and weigh about 2000 kilos. The male giraffes, called bulls, are larger than the females, called cows. A baby giraffe, called calf, is almost 2 meters tall at birth!

During its first week it grows about 2,5 centimetres a day. Giraffes have long legs and long necks and brown spots (similar like leopard's) on the yellow skin; each has a unique pattern. They have a small hump on their back and two hair-covered horns on their head. Because of their long neck, giraffes have a big heart to pump blood all the long way up to the brain. A giraffe's heart is the biggest of all animals.

Giraffes live up to 25 years in the wild and often longer at zoos. Giraffes are not endangered species. They often live in protected areas. There are around a 100.000 giraffes in the wild today. Adult giraffes have a few enemies, but a baby giraffe can be killed by lions, leopards and hyenas. Giraffes can kick very strongly with all four legs. Their powerful kick can kill a lion. The most serious danger comes from humans who hunt giraffes because of their skin.

A giraffe's pattern

A giraffe

They are leaf eaters. With their long necks they can reach high into trees to eat the leaves. The long tongue helps them get leaves almost out of reach. It is 45-50 centimetres long and blue-black coloured. An adult giraffe eats over 30 kilograms of leaves and fruit each day. Leaves give them most of the moisture they need, so they don't often drink water.

Giraffes only drink about once a day. They can drink 40 liter at once.

With their long legs they take big steps when they walk or run. One step can be about five metres long. They can run very fast, about 60 km per hour. Because of their long legs and short bodies, giraffes move differently from other four-legged animals. They first move two legs on one side of the body and then two legs on the other side. The name »giraffe« means »one who walks swiftly«.

FUN FACTS

There are some interesting but also funny facts about giraffes. At one time people in Africa called them camel-leopards because they looked like a combination of a camel and a leopard. A giraffe's eyes are the size of golf balls. Giraffes can moo, hiss, roar, and whistle. Giraffes rarely sleep. They only go into a deep sleep for about 20 minutes a day. When a giraffe baby is born it falls almost 2 meters to the

ground and usually lands on its head. Wow, what a way to start a live, isn't it?

Traditional Slovenian food

EVERYTHING SLOVENIAN DOUGHNUTS

Slovenian doughnuts are round and usually filled with jelly, marmalade, jam or chocolate. They can also be filled with custard or cream, but that is usually less common.

The name comes from German *Krapfen*, and it is a variation of the Central European pastry, known as Berliner. The recipe for homemade doughnuts includes yeast, milk, sugar, flour, salt, butter, eggs, rum, lemon peel, marmalade and powdered sugar.

We usually eat doughnuts at carnivals.

OF MLINCI

Mlinci is a dish in Croatian and Slovenian cuisine. It is easy to prepare mlinci by simply pouring boiled salted water or soup over mlinci.

To prepare homemade mlinci, we need:

- flour,
- salt,
- water,
- sometimes also with eggs and fat.

The dough is then rolled out about 1 mm thick and 20 to 30 cm wide, and baked in an oven or on a hot plate. Later it is broken into pieces about 5 cm in size before final preparation with hot water or soup.

Before serving, mlinci can also be quickly fried in poultry fat. In Slovenia, duck or goose is traditionally eaten with mlinci on St. Martin's Day.

IDRIJSKI ŽLIKROFI

Idrijski žlikrofi are Slovenian dish from Idria, made from phyllo dough with potato stuffing and typical shape. For preparation people use a traditional recipe, which was described in 19th century, the exact source of food is unknown.

They are prepared as a starter, side dish with meat or a dish or dressed with crackled crumbs.

I have chosen to describe 5 food festivals. I want you to choose the best one.

The first one is the Oyster & Seafood festival. This festival is going to take place on Friday 27th and Sunday 29th September this year, more precisely in Galway City in Ireland. This is the most internationally recognised food festival in Ireland and the world's longest running International Oyster Festival. This events will take place in some of Galway city's finest restaurants, including a seafood trail. There will also be live music, cooking demonstrations, cooking challenges and jive & jazz.

Oyster festival

The second one is the Garlic festival. This festival will take place just outside of Newchurch at the heart of the stunning Isle of Wight. There will also be live music, cooking demonstrations, talented animals and arena entertainment, archery, giant fun-fair and a lot of garlic. If you like garlic this is the festival for you.

The third festival is the Ludlow Food festival. This festival will take place from 13th to 15th September and there will be over 160 exhibitors. There will be free talks and demos, kids activities, trails and much more. On this festival you will have the best food and drink across the region of Ludlow. The fourth festival is the Loch Lomond food and drink festival. There will be live folk music on both days, plus on Saturday there will be a special guest with Mabel the cow so that kids can try their hand at milking. For the kids there is also a mini-golf, riding a bike and even a boat hire.

This festival will take place on 1st and 2nd September 2013.

And finally the fifth festival is the Great British cheese festival, which will take its place on 22-23 September 2013, precisely in Cardiff City. Entertainment is included, e. g. The World Cheese Tossing Champion, Cheese skittles with Lincolnshire Poacher and many more.

If it was up to me I would choose this one.

My sister Metka

EVERYTHING OF PINCH A

I will describe you my younger sister. Her name is Metka and she is eight years old. She has got her birthday at the end of march. She is not so tall for her age and she is also very slim. She has got big brown eyes and long, densely eyelashes. She's got long, straight, dark brown hair and she usually has a ponytail. She has got a round face, too. She has got crooked teeth, but she will get braces next year. She is pretty. She likes to wear comfortable tracksuits at home, but for school she likes to wear blue jeans and striped T-shirts.

But even if she is pretty she has got many good and bad sides of character. She is a smart and intelligent girl, on the other hand she is lazy and she doesn't like to do homeworks or study. But she is light-hearted. She doesn't care if she doesn't know the answer on a teacher's question. People who don't know her would say that she is shy. But this is not true. She is shy if she doesn't know the person well, but if she knows him/her, she is a very open person. She is polite to me when she has a good day or when she wants something from me. She talks quite fulsomely then.

I don't like that. She can be very impolite, too. And when I promise her something, she can be very patient (of course if she knows that she will get it).

My sister Metka

However, we must not forget that she is just a kid and as a kid she is honest and friendly. She has many friends. Anyway, my sister is annoying sometimes, too. That makes me really angry. For example: I am doing my very important

homework and I ask her if she can be quite for some time and not listen to the music so loud. She makes you feel like she is so reliable. But when I finally start to study, she comes to my room and starts philosophising and talking about things that aren't important at the moment. She knows that it makes me angry. However, she doesn't care. Granted ... she is not a bad person. She has got good sides of character, too. She isn't jealous or envious at me. And when I have bad days, she smiles at me and makes my day better. She cheers me up. She is my sunshine on a rainy day. And when she really knows that she did something wrong, she apologises ... I love her, no matter how she looks like or what character she has, but just because she is my younger sister.

A film review

Christmas carol

In school we watched a film called Christmas Carol. It was about one man, who did not like Christmas, because when he was a child, he was always alone on this holiday. Because he did not like Christmas, he did not let others to be happy and celebrate it. That man had a store and in this store he had a worker, too. This worker asked him if he could stay home for Christmas because he had a family. But this man did not allow him. When he was going home, he did not even let others to sing Christmas carols. So when he came home, there was a ghost scaring him. That ghost said that three ghosts would come to this man's house. And so it happened.

All three ghosts were scaring him and showing him his life and what he had done. And he was scared. He wanted to go home, but ghosts did not let him. They showed him a future, too. And it was horrible. They showed him that a young boy - his worker's son - will die because he's very ill and that he will die, too. It was terrible. But then he woke up and realized that all this was just a bad dream. And because of this dream he has changed. He became a good person. He let his worker stay home on holidays and he gave him more money than he did before. He also let the others sing Christmas carols and he sang along. And the most important thing - his worker's son did

not die. So everyone has remembered him as a good man, who never forgot Christmas.

A crime story

A PINCH OF EVERYTHING

Betty Owens is a rich woman. Last Saturday someone stole her jewels. Her younger sister Cindy was outside. She was playing with her dog. Her older brother Marcel was outside, too. He was playing football with his friends. But her husband Antonio wasn't at home. He was working in the hospital, five kilometres away from home.

Her secretary Louise was searching Betty's younger sister Cindy. She wanted to ask Cindy where her necklace was. Cindy didn't know anything about her necklace. When Louise went past Betty's living room, she saw a beautiful diamond necklace on the table. She looked around her; there was nobody, so she entered the living room very quietly and stole the necklace.

Chicken licken ending

Chicken Licken was a small chicken. One day a nut fell on his head. He thought the sky was falling down so he went to London to say the news to the King. On his way there he met Henny Penny and told her about the sky. Henny Penny decided to go to London with him. Along the way they met Ducky Lucky, and Goosey Loosey, too. They all joined Chicken Licken and Henny Penny on their way to London. Suddenly, Foxy Loxy, the fox, showed up. When they told him about their trip to London, he gave them the advice to go the other way ...to follow him ...

So Chicken Licken, Henny Penny, Ducky Lucky and Goosey Loosey followed Foxy Loxy. But they were afraid of Foxy Loxy, because they were not sure if he was going to eat them or not. So they walked one meter behind him. Foxy Loxy suddenly stopped. He started to run to Chicken Licken and his company. They tried to escape from him, but, oh dear, they couldn't run so fast! But they did not give up! So they decided to stop and wait until Foxy Loxy came and then they would step away so Foxy Loxy would fall in the river. And really-Foxy Loxy fell in the river and because he couldn't swim, he drowned and he died. Chicken Licken, Henny Penny, Ducky Lucky and Goosey Loosey were so happy, that they forgot to go to London and tell the king that the sky was falling down.

So they went home and lived happily to the end of their life.

Mobile phones

A PINCH OF EVERYTHING

Mobile phones

Hey! Have you ever asked yourself how life would look like, if we have not got any cellphone? It's impossible. We couldn't even imagine that. Mobile phones have good sides. We can call someone if we want. Anywhere in any time, in the office, shop, in the street in the house, in a bus, in a car, ... Ups, mistake. You are not allowed to use a mobilephone in a car. Especially if you are a driver, because you can cause an accident. On the other hand cellphone in a good »machine«. We can save informations on it. We have clock, stopwatch, games, camera, light, ... on it. But we shouldn't forget that someone can find out your code or can misuse your phone. That's a kind of crime, because that is our personal business. In school we shouldn't have our cellphones, but everybody have it. Teachers aren't mad with that, but they are very angry if we don't turn them off.

Vesna Zemljč, 9.r.

Mobile phones

Cell phones are probably the best invention which change the world, but here are some good and bad things about it. The most advantage of having a mobile phone is you can communicate to your family and your friends no matter where you are and anytime, but if we don't want to talk we can also send messages. Mobile phones aren't just useful for communication we can also listen to the music, take photos, chat with friends, surf on the internet and many other things. On the other hand, there are also disadvantages. Using a lot mobile phone can harm your brain. If you use mobile phones too much, you will get bad effects like dizzy or ears problems. In addition, when you use mobile phones while you are driving, you will get an

accident. Some people hang on the phones like every day, so that can take to addiction of using mobile phone. At our school cell phones are not allowed, but some kids take them with them anyway, which is partially not wrong, because they can call for a ride or if something happened to them. But here's also a group of kids which use mobile phone for games in the worst case, they play them during the lesson and with that they disturb the lesson. If you carry your cell with you, you must turn on quiet mode, so if someone calls you your phone doesn't ring and you don't disturb the lesson and you won't be punished. I think that life without cell phones will be a lot more different that is now, but people will be happier and nicer also they will spend more time with friends and spend more time in nature. If we take a look back, people in 50s didn't know mobile phones, but they survived anyway. We will still use and write letters, we would spend more time on posts, which we use now just for pay bills - for mobile phone.

Natural disasters

On Sunday I was in Italy, exactly in Naples. I was watching the volcano, when I saw smoke coming out of its top. I was scared, so I started running down the streets. It was very hot near the volcano, so everybody was running. When I came to the inner city, I started to warn people, so they could escape on time.

I hope something terrible like that would never again happen to me or anybody else.

In the end, nobody was hurt, but there was a mass destruction, so this event had two faces. The good one was that nobody was hurt, but a bad one was that some people lost their homes. I don't think I will go to Italy again.

Florida

INTRODUCING PLACES

Florida is a state in the United States of America. It is in the south-east of America. Next to it lies the Mexico ocean and the Atlantic ocean. The country or state that lies next to Alabama. The capital is Tallahassee, and the biggest city is Jacksonville. But people know Miami more than Jacksonville. Miami is a big city. It has over 5 million citizens, but more than 19 million people live in Florida. Its surface expands to 170.451 km², so it is 8 times bigger than Slovenia.

The highest point of Florida

The highest hill of Florida is Britton hill, but if we compare it to Triglav we see the difference. Britton hill is 105 metres high, but Triglav is 2864 metres high.

Many natural disasters happen there like hurricanes and tornados. That is obvious, because Florida lies near the sea, it has hot summers and warm winters.

Florida was officially found in the year 1513 by a Spanish explorer. He gave it the name Florida. It means Flower land in Spanish. Florida joined the USA in the year 1845. It was the 27th state.

The governor is Rick Scott. Florida has a nickname, too. It is The Sunshine State. The anthem is: Florida, Where the Sawgrass Meets the Sky.

Florida

Tourism is the most important part of industry. They make the most money with it, because Florida has lots of sights. They have many museums, beaches, parks, and other sights. In summer many people rush into Florida, but a trip isn't cheap. A plane ticket, or boat costs a lot of money, and then you have to pay for the food, the hotel and the sight-seeing tour. That can cost you a lot of money. But it will pay off because a trip like this is very beautiful and interesting.

Interesting facts about Florida:

The famous singer Flo Rida was born in Florida.

Flo Rida, a singer

Johny Depp the famous actor was born in Miramar.

Miami

It is the biggest city in Florida. It has more than 5 million citizens. We know it as a metropole with many good beaches. Miami lies on the Atlantic coast. It is one of the richest cities in the whole USA. It was found in 1566 but settled in 1825.

Make chess

S I made my own chess. I cut a big board on half. I sawed a long stick into 14 figures. I coloured seven of them with red colour and 7 with the green one. I drew some fields with the pirograph on the basic board.

A pyrograph

Then I coloured individual fields with black. The competitors put the figures on the edge. A competitor with the red figures starts the game. The competitor moves forward, left or right. The moves depend on the number of dots on the cube. The competitor that moves the figures on the opposite side wins.

Die Kühe

Sie leben fast auf der ganzen Welt. Wir finden sie auch in Slowenien. Die Bauern haben sie im Stall. Sie züchten sie, weil sie dem Menschen Milch, Kälber und Fleisch geben. Aber sie waren nicht immer als Bauerntiere bekannt. Bevor der Mensch sie angefangen hat zu züchten waren sie wilde Tiere.

Die Kuh wird zu Kuh, wenn sie das erste Kalb hat. Dann können die Bauern sie erst melken. Die slowenische Kühe sind eine Kombination von braun und weiß oder schwarz und weiß. Schwarz-weiße Kühe geben die meiste Milch.

Die geben uns mehr Milch. Sie haben auch vier Beine, einen Kopf, zwei Hörner. Die sind länger als die Hörner des Stieres. Die Kuh hat auch einen Schwanz. Wenn sie mit ihm schlägt, kann sie schon weh tun.

Sie fressen Gras und Stroh. Sie saufen Wasser. Üblich suchen sie keine Nahrung, weil sie keine wilde Tiere sind. In der Wildnis lebende Kühe finden die Nahrung auf der Wiese. Die Bauern tun das, weil sie dann kein Futter geben brauchen.

Die Kühe können laufen, aber sie können nicht schwimmen. Sie können bis zum 7000 Liter Milch pro Jahr geben, aber sie können nicht klettern.

Was mag ich ...

Mein Hobby

Mein Hobby ist malen. Ich male für das Leben gern. Ich habe schon viele Bilder gemalt. Ich male allein. Für ein Bild brauche ich verschiedene Farben, einen Pinsel, ein Glas Wasser, ein Tuch, eine Leinwand und ein Stativ. Neben der Leinwand male ich auch auf die Wand. Das ich weiß, welches Bild ich malen will, brauche ich ein Motiv. Ich finde es auf dem Computer oder in der Natur. Meistens male ich Stillleben, Naturbilder oder Fantasie Geschöpfe. Manchmal verkaufe ich meine Kunstwerke, aber das passiert selten. Am Anfang dieses Schuljahres, im September, hatte ich auch eine Ausstellung in meiner Schule. Die Kunstlehrerin, Frau Ana Šuster und der Schuldirektor Stanislav Senekovič haben mir dabei geholfen. Wenn ich Zeit habe, treibe ich auch gern Sport.

Meine Sommerferien

Meine Sommerferien waren schön. Der 22. Juni war der letzte Schultag. Am 23. Juni haben schon die Sommerferien begonnen. Am ersten Tag habe ich die Schule vermisst, weil ich gerne mit meinen Freundinnen plaudere. In den Sommerferien hatte ich viel Freizeit. Ich mag meine Freizeit. In der Freizeit habe ich Akkordeon und Gitarre gespielt. Ich habe auch Computerspiele gespielt. Außerdem habe ich auch mit meinen Freunden in Facebook geplaudert. Am Abend habe ich Bücher gelesen. Wenn Schule ist, habe ich keine Zeit dafür. Im Juli bin ich nach Olimje gegangen. Dort bin ich geschwommen und getaucht. Ich bin mit meinem Bruder, Schwager, Neffe und zwei Schwestern gefahren. Dort sind wir 5 Tage geblieben. Wir hatten kein Glück mit dem Wetter, weil es die ganze Zeit geregnet hat. Im Juli habe ich einen Hund bekommen, weil der alte Hund im Oktober letztes Jahr gestorben wurde. Der neue Hund heißt Rex. Er ist sehr freundlich und lieb. Im August bin ich auch mit meiner Schwester, meiner Freundin Nadja und ihrer Cousine Rad gefahren. Wir sind durch Jurovski Dol und Varda gefahren. Im August habe ich

meine Nachbarin besucht. Sie ist meine beste Freundin und sie heißt Vesna. Am 18. August bin ich nach Italien gefahren. Ich bin nach Gardaland mit meinem Neffen, Schwager und zwei Schwestern gefahren. An dem Tag musste ich um halb eins in der Nacht aufstehen und sind mit dem Bus gefahren. Wir sind um 6 Uhr losgefahren und um halb neun angekommen. Dort haben wir einen sehr schönen Tag verbracht. Wir haben »Sea life« besucht. Wir haben viele kleine und große Fische gesehen. Gardaland liegt neben dem Gardasee. Dieser See ist sehr schön, ganz sauber und sehr groß – Gardasee ist der größte See in Italien. In Gardaland bin ich mit den Achterbahnen, und mit vielen anderen Fahrzeugen gefahren. Ich war in Gardaland zum zweiten Mal. Wir hatten sehr schönes Wetter. Es war alles toll. Die übrigen Ferientage habe ich zu Hause verbracht.

Interview mit Frau Milena Kokol

Ostern in Slowenien

Ostern ist der wichtigste Feiertag für alle Christen. An diesem Feiertag feiern wir die Auferstehung von Jesu. Jede Feier unterscheidet sich von Land zu Land. Am Freitag verzichten die katolischen Leute auf Schweine- und Rindfleisch. Am Samstag gehen wir in die Kirche und der Priester segnet das Essen, das wir mitbringen und am Sonntag feiern wir die Auferstehung. Eine Woche vor Ostern gehen wir auch in die Kirche und bringen ein paar Pflanzen. Der Legende nach sollten sie das Haus vor Unwetter schützen. An Ostern bemalen wir Eier und bringen sie am Samstag in einem Korb zum segnen. An Ostern essen wir Fleisch, Meerrettich, Hefestruzel und Ostereier. Die Eier sind hart gekocht. Es ist Tra-
