Farewell: Farewell, my eldest! 32

Dear readers,

One more school year has come to an end. We are overcome with emotion to step into holidays, aren't we? Hooray for holidays!

On the other hand, we are afraid of the new. New tasks, hard challenges. Will we make it? Will we be up to these tasks? Is it worth to take pains?

Look inside yourself and you will get the answer right away. In order to succeed you have to think positively, believe in yourself and try hard. You will sometimes feel awkward and uncomfortable while trying something new, that's for sure, but this is the only way to grow.

Don't try to find excuses. You better take the chance.

Lots of love, positive thinking and laughing during summer holidays!

I can.

I will.

End of story. :)

Every year in April, after Easter, a festival called la feria takes place in Sevilla. It is the most visited festival in Andalusia and has been celebrated since 1846. People prepare *las casetas*, tents in which the visitors gather.

<http://goo.gl/8zNZvI>

Tents, *las casetas*

They dance flamenco, sing and have fun. During this festival bull-fights are organized in bullrings.

People can have fun in the amusement park during this festival, too. During the week of la feria the local people wear traditional costumes, dance along the streets and spread good mood amongst visitors and other people.

The city is decorated with

flowers, Chinese lanterns and colourful ribbons. The festival attracts a lot of tourists every year, because this is a unique event of the year going on in Sevilla, in the south of Spain.

No, I like my life as it is now.

my first published book published.

6. Why did you create your own publishing company, EWO?

Having my own publishing company allowed me to keep control of certain things that I couldn't before, especially when it came to publishing my books.

11. What is your favourite topic to write about?

*That's a good question ... But it really depends on the work, I enjoyed writing **Geniji v kratkih hlačah** a lot, so school and children were very popular topics in my works, otherwise I can't really decide.*

7. Do you admire any other writers? If yes, which?

I admire many other writers.

12. Do you write for children or for older people?

I write mostly for children. But I'm sure that there can be some books suitable for older people, too.

1. When did you write your first book?

I wrote my first book in primary school.

8. What was your favorite book when you were a child?

I'm not really sure, as it was a very long time ago.

2. Did you show your first book to anyone?

No, I kept it to myself, I was kind of afraid to show it to anyone else.

9. What was your childhood like?

My childhood wasn't troubling or anything like that, I'd say it was good and I was happy.

13. Was there a book that you didn't like, but still published it?

Yes.

3. What or who gives you inspiration?

Well, it depends on the book I write. Many things give me inspiration, every time I write. Sometimes it's my family, sometimes the people who will read the book and a lot of others.

14. How did you feel as the president of the Slovene writer's association?

I actually felt really well, but it was sometimes hard, too.

4. What are your three favourite works that you have written?

I like a lot of my books that I wrote and I can't really pick the best.

Pregl's favourite book

<https://goo.gl/vqRVtT>

15. What kind of things, other than writing, do you do?

Hmm ... Well I like talking to my family and friends, other writers and of course my fans, but writing is really my primary thing to do.

5. If you were to relive your life, would you have taken another path or still be a writer?

10. Were you successful from the beginning of your career?

Yes, I'd say so, but at first it definitely took hard work to have

Vesna Ornik, Class 8

The day of happiness

When you are alone,
and in your heart there is fear,
on your cheek there is a tear.
All alone you cry,
and when your family comes
your heart begins to fly.
Then you have the best day of
your life!
They listen to it,
'cause they know
it's hurt.

Nuša Najdenik, Class 8

Happiness

It's like an empty bag in which you
can put something,
something that only you have,
something that makes you happy.
And always have on your mind
that you shouldn't care
what other people think,
because it is okay to be different.
Do you know why?
Let me tell you, it's cause
real friends will understand you
and they'll know that you are
responsible for your own happi-
ness,
and they won't even try to change
this.

Don't spend your life on those
who don't put any effort to
be in yours, they just aren't worth
it.
So just sit back, relax and do more
of what makes you happy.

Nika Škerget, Class 8

Happiness

Happiness is not easy to find,
in our lives there are a lot of fake
smiles and lies.
But everybody can find happiness
with their friends and family.
Enjoy your life and be happy.

Living happily

We live our life
that isn't all sunshine and rain-
bows,
yet we want to find a way
to be happy every day.
People want to travel back in time
to change what they did wrong,
not knowing they can fix what's
broken,
at any moment, right now.
It's everything what makes you
happy
that drives you on.
The path to a family,
no one can live by his own.
The shadows that we overcome,
accomplishment, failure, victory
and defeat,
we will always stand on our feet.
Tears won't let you go to sleep.
Not every story has a happy end-
ing,
some of them are sad.
It's our journey from start to finish
that makes a happy end.

Happiness

Always be happy,
because this is all that is
important in your life.
Enjoy your life,
even when it is winter, spring,
summer or fall,
always be happy.
Don't share your happiness with
your enemies,
but share it with people you care
about and love.
When the enemies break you
down,
sing a song Happy.
This song will make your day hap-
pier than ever before in your life.
Remember: just enjoy your own
happiness and you will be happy.

Most people enjoy it,
but some of them hate the
ryhmeworld.
Some of them can feel the happi-

but they can't show it outside.
Make your lips like a rainbow, but
upside down,
and try to make smile every town.
Candies falling on the ground
Makes every kid smiling around.
A tiny bit of laugh
makes just the first half.
The second half is a game,
a game with your friend's name.

Whenever you are sad,
You just have to think of a person
you love,
And all these moments you spent
together.
It isn't important if this person
isn't next to you now,
It is important that he/she will be
next to you when you need him/

Bees and honey

A bee (a scientific name is *Anthophila*) is a kind of insect. In the world there are almost 20.000 kinds of bees. We breed bees in beehives. In a family, there is one queen bee, a lot of other bees - worker bees, and some drones. Worker bees pollinate flowers and some other plants. The bees produce honey, pollen, beeswax, propolis, royal jelly, and bee venom. Adult honey bees live in a season only from six to eight weeks, as well as during the winter about half-year. The queens can live for several years, while drones live only during the life of the bee. In Slovenia the autochthonous bee is called Carniolan bee.

Honey is a sweet liquid. We know different kinds of honey: acacia honey, flower honey, forest honey, linden honey. Honey helps you when you have burns or if you have stomach troubles, inflammation. It is rich with the energy nutrients that also contain vitamins, minerals, enzymes, antioxidants. It is especially advised with anemia, insufficient nutrients, pregnancy, physical stress, reduced resistance of the immune system, in age and in recovery from the diseases.

Honey is relaxing and allows you to sleep better.

Beekeeping in Slovenia

In agricultural branch which breeds bees the another name for beekeeping is apiculture. When they breed bees, they get a lot of honey and other products. They also pollinate flowers. The most popular bee is the *Apis mellifera* (the European honey bee).

Apis mellifera, the European honey bee

Beekeeping in Slovenia has a long tradition. The most famous beekeepers in Slovenia are Anton Janša and Peter Pavel Glavar. The products of bees are honey, pollen, royal jelly and propolis. Honey is food. It's also a medication. There are a lot of different kinds of honeys. There are about 20000 sorts. Honey is very healthy. A bee hive panel is a name for a painted wooden plank which closes the bee hive. It's very famous in Slovenia. The oldest bee hive endings were made in the middle of the eighteenth century. Queen bees are very important in beekeeping. They lead the bees. The first association in Europe arose in Slovenia in a village called Rodine pri Žirovnici.

Tadej Roškarič, Class 9

Society of beekeepers Sv. Jurij

Society of beekeepers Sv. Jurij was founded in year 1956. There were 15 regular members, the chairman, the secretary, the cashier, the lord and other members of that society of beekeepers in the beginning, 22 members and 6 villages (Partinje, Varda, Jurovski Dol, Malna, Gasteraj and Žitence) in year 1966. We have 18 old and 13 young members from school OŠ J. Hudalesa in Jurovski Dol now. Beekeepers built a bee-house near our school that's used for teaching pupils about bees.

Adrenaline park

One day me and my family went to an adrenaline park. We had a lot of fun. They gave us climbing equipment and showed us how to climb. There were lots of climbing areas and obstacles. There were platforms on the trees to stand on and rest. At the end of the platforms there were zip lines. We waited a lot for my mum because she was scared of height. Some platforms were eight metres high. I like climbing there because it's interesting.

Dear Sanja!

Greetings from Vir. We arrived on Monday morning. The journey was long, but my sister and brother were sleeping and I was listening to music or watching TV. We arrived after four hours. It was a long journey. When we arrived, we helped our mother and father with suitcases. We stayed on the beach for two hours. Children play in water or swim every day. My mum and dad go to our suite and they prepare lunch, which we eat on the terrace. After lunch we eat ice creams. In the afternoons we sometimes go to the city centre or the amusement park. Sometimes we play cards, too. We are coming back home in two weeks. We are enjoying our holiday a lot.

Every evening we eat ice creams. On Friday we went to the shops and bought something to eat. I read books a lot and watch TV, too. On Saturday afternoon we are going home but before going home we will pack our clothes in our suitcases. The weather is great, it was windy only the first day.

Greetings from Medulin. We arrived on Monday evening. The journey was long. During the journey I was writing text messages and listening to my favourite music. My sister was playing games on the phone and listening to music, too. We went to the hotel and we unpacked the suitcases in our hotel room. We walked to the beach to see the blue sea. We go to the beach every day. My sister and me play with the ball, collect shells and swim. My dad swims and sunbathes. We eat local food and sea food. The weather is sunny all the time. At night we go to the centre. Medulin is a very beautiful town.

You should never have to think twice about who your true friends are. If you do, they aren't true.

<http://goo.gl/n5Vuj3>

The best friend is a person who makes you a better person and who's there for you no matter what the others say. It's the person who loves you the way you are. I have many friends, but only one best friend. This is Sara.

She's wonderful. She's tall and thin and she's got long dark brown hair. Most of people think that her hair colour is black, but that's not true. One thing that I love on her are her brown eyes. But I don't like her just because of her look. She has an amazing personality. But in the beginning we weren't friends. We didn't like each other. Later things changed and we changed, too.

She's the person who knows everything about me, all bad and good things. I trust her the most. We didn't have a bigger fight or anything like that till now but we aren't perfect either. Still, we listen to each other and I respect all her decisions. We have crazy and funny moments together and I like that, because with her I can be who I really am. I bet she could tell more about me than I can.

If you have a best friend, I hope you know, you are the lucky person. I think you have to be what you are to make a good friendship. You have to be honest and you have to trust each other, of course. That means you have a best friend.

Friendship

I love spending time with my friends. They make me feel relaxed and comfortable around them. I have a lot of friends, but only a few true ones. One of my true friends is Živa and she is also my best friend.

Živa is my schoolmate and that's great because I can see her almost every day. If I describe her look, I can say that she's beautiful. She is thin and tall, she has quite long brown hair and gorgeous blue-grey eyes. She dresses up stylishly. But the main reason she's my best friend is her wonderful character. She is a really good person. She doesn't care only about herself and she likes to help others. She helped me, too, a lot.

Our friendship is really special to me. We listen to each other and sometimes we laugh about most random things together. But we

can be serious, too. I would lie if I said that we never argue, but we don't argue about every little thing and we always solve our problems. We talk about what bothers us and we accept compromises. I like it that we can both feel free to talk about problems. In my opinion Živa is a perfect example of a true friend and usually a good friend is what makes a good friendship. It's great to know that you have someone who really cares and is always here for you. I really feel much safer while knowing I have Živa for my best friend, because I simply know she won't leave or betray me. She loves me for who I am and that's important to me.

I hope everyone has someone to count on because I can't even imagine my life without my wonderful friends.

Herbs

A PINCH OF EVERYTHING

Basil (*Ocimum basilicum* L.)

It comes from India. You can plant it in warmer area as a bush and in colder area as an annual. You sow it in a box in a warm place in early spring or later in winter. Before you plant it you must leave it in a cold place to become stronger. Plant it 30 cm away from the other plants. Water it all the time. You can save leaves and you can dry them or you can freeze them and then use later. Basil can be used as a spice. It also helps with stomach troubles and intestine troubles.

Chives (*Allium schoenoprasum* L.)

Chive is a perennial with purple-red blossoms. It needs wet soil. You must plant it 30 cm away from the other plants. In spite of cutting off some leaves for use it will go on growing. A few years ago, it was applicable for many troubles. Chives has a wide variety of culinary uses, such as in traditional dishes in different countries.

Tarragon (*Artemisia dracunculus* L.)

It's aromatic perennial and it comes from Asia and North America. We use fresh leaves, which we pick up. Draining isn't recommended because tarragon loses aroma.

Coriander (*Coriandrum sativum* L.)

A plant has a disagreeable smell. It comes from Asia and Mediterranean. Products have an aromatic smell. We use it in spices for

Lucija Ornik, Class 9

Marjoram (*Majarona hortensis* Moench)

It's a semi-durable plant from south-west Asia. In Slovenia the plant can't hold out the winter so we are growing it as an annual. We sow seeds in spring. The plants have to be young when we sow them.

We have to cut down the small peaks so the bush goes on growing. It can grow up to twenty - five centimetres. In fall we transfer young plants in pots to a warmer place. We can dry or freeze it. We use it as a spice. It is a healing plant, too. It lowers cramps and it can stimulate excluding stomach juice.

Marjoram

Bay tree (*Laurus nobilis* L.)

It's a subtropical plant. It grows along the shore. In winter we put the plants in a warmer place. We collect the leaves in summer, dry them on the sun and put them into covered glasses.

A branch of laurel leaves

This is a healing plant, because its leaves can help to increase the appetite and relieve digestion. In cooking we can add it to beans, goulash and sauerkraut.

Tadej Roškarič, Class 9

Parsley (*Petroselinum crispum* (Mill.) Hill)

Parsley is a biennial, but we grow it as an annual. It's grown all over the world. It comes from SW Asia and Mediterranean. We can sow it in late winter or in spring and summer. It sprouts very slowly. In the middle of summer we can sow it in pots. Leaves can be torn whenever we need them, but we must not tear all of them at once. In medicine it is used for indigestion.

<http://goo.gl/4aY9Gi>

A bunch of parsley

Rosemary (*Rosmarinus officinalis* L.)

This is a perennial green bush of Mediterranean. Rosemary's blossoms are blue and they attract insects. In Primorska parsley is used as a hedgerow, too. Leaves can be dried. We can use parsley to season meat.

Mint (*Mentha × piperita*)

Peppermint is a plant. It's a herb. The latin name for it is *Mentha × piperita* L. It's a perennial. We harvest it from fall to spring. We can freeze it into little ice cubes or dry it. It lowers the number of cramps. It can also help with stomach problems. It's height is from 50-90 cm. It's dark green. We can't find it in the nature. Japanese people use this herb for a special kind of oil. It contains a lot of menthol. It's one of the most popular herbs. It can prevent the growth of bacteria. It heals coughing.

<http://goo.gl/MTczZA>

Mint

Thyme (*Thymus vulgaris*)

It's an aromatic fragrant herb. It grows near the Mediterranean sea in Europe. It was used in ancient Egypt, so it's a pretty old plant. The side effect of it is skin irritation. It's recommended that pregnant women don't use it at all. The positive effects of garden thyme are easier breathing. It also heals the nervous system. It helps with stress.

Ermine

A PINCH OF EVERYTHING

Ermines are also called big weasels. Their name means animals with white fur. They are about 30 centimetres long and their tail grows up to 10 centimetres. Their tail is brown with black end, their fur is brown on the back and white on the stomach.

An ermine

Their teeth are small but built to tear and cut the meat. When winter comes, their fur changes into white. That is because they can hide very well in the snow from their predators. They have very sensitive, small curved ears and large eyes. Their smell is four times more sensitive than ours. Grown up animals weigh about 200 grams. They walk, but they also jump to move. Those jumps are about 3 metres long. They are very fast. They can dig very well because they have paws.

An ermine has dug a hole.

They can run through snow very fast. They look for food on the ground. They hunt their prey. They eat small rodents, birds, reptiles, bigger insects and some-

times also strawberry bushes.

Ermines are good hunters.

They drink water. They can swim really well and also climb very fast. They can get through small holes to hunt their food.

An ermine is climbing a tree.

Ermines live up to 7 years. They live in Europe, North America and North Asia. In Slovenia they are rare and endangered. Their living spaces are in woods or river valleys. You must have a lot of luck to see them in the wild. They sleep at night and day, but they are active in all seasons. In winter they sleep for a little less time than normally.

Ermines belong to family of beasts. They are mammals. They drink milk from their mother,

they are born alive and they are warm-blooded.

Did you know that in 7 weeks, males are bigger than their mother? Here are some more interesting facts about them:

- Some of the smallest weasels are the most dangerous.
- They have a bad smell that keeps other ermines away.
- Climbing up a tree, they can be faster than a squirrel.

A story in sounds

EVERYTHING

It was a cold, dark night in the old city. A lot of structures were destroyed and abandoned. I was walking across the street when I heard a baby crying. I tried to find where that noise was coming from. Suddenly I heard a dog barking. I saw the big dog with a human face and a voice of a baby. He started to chase me. I tried to run away but he was too fast. I expected a bite when I heard a shot. The dog was lying under my feet.

Simon Zemljič, Class 9

A PINCH OF

It was a cold, dark night and Mike was sleeping. The window in his bedroom was open and there was a gentle wind blowing through it. Mike couldn't sleep well, because he had a nightmare. He was dreaming that he heard some scratching under his bed. He was totally frightened. He slowly got up and looked under his bed. He couldn't see anything, because it was too dark. He climbed further and suddenly an ice cold hand grabbed his leg! He wanted to scream, but he wasn't able to make any sounds, he couldn't even breathe properly. He was shaking because of cold and he started to cry. The creature under his bed wouldn't let him go. He wanted to use all his power to scream as loud as possible, but then he woke up.

He gladly realized that it was all just a bad dream.

Sara Fras, Class 9

It was a cold, dark night and there were some people running down the street. They stopped running and shouted something but I didn't hear what it was. They went to the house which was very old. They started knocking on the door and the old woman opened them. They started talking and then screaming. A lot of people came out of the house and they looked at them. Noone understood them. Suddenly they started singing. When they finished this scene, they said with a very creepy voice that they were actors and that they were filming a movie. Everyone started laughing. People who lived in this street were very happy when this was

over because they were very scared and didn't know what was going on.

Ana Brunčič, Class 9

It's Halloween and children are having a party without their parents. They are in an old house, where lights are throbbing. Children are dancing in the living room. There is a girl going upstairs to see other rooms. In the room there is a bed, a mirror, a wardrobe and a wooden box. She opens that box, but it's empty. She goes into the next room. There is a library with many books. Suddenly she hears someone crying. She returns into the bedroom and she opens the wardrobe. There is a boy standing in the wardrobe. A girl asks him what he is doing there. He says that he was walking to the supermarket when he saw this old house. He came in and looked into each room. In the bedroom he opened the wooden box and there was a ghost. He hid in the wardrobe and the ghost disappeared. A girl says that in this house there are no ghosts and she invites him into the living room. He accepts the invitation and they go downstairs where the other children are.

It was a hot, sunny day and I was outside with my family. While we were walking along the path, I suddenly heard somebody walking behind me. I looked around and there was nobody. I asked my family if they had heard any voices. They told me that they didn't hear anything. After a while I heard somebody walking behind me again. I looked and there was a man in black. He had

a wrinkled face. He said: »Come with me!« with his old and deep voice. I started to scream. Then my mom woke me up and asked me why I was screaming. I told her the whole story. She told me that it was just a dream.

Laura Gragar, Class 9

It was a normal sunny day. A man was walking on the pavement in a town. He had his wallet in his pocket. The man stopped in front of a building and started to write something in his notebook. As he was writing in his notebook somebody got behind him and stole the his wallet. He noticed that and ran after the thief. He couldn't recognize him because he was wearing a mask. As they were running the thief crossed the road and got hit by a car. The man called an ambulance and pulled off the thief's mask. It was his classmate from the primary school. He was shocked how his friend has changed.

Lucy was walking in the dark forest. There was an owl in the dark tree. It was looking at Lucy. She was very scared. Ten minutes later she found a little cottage. She went to the cottage, because it started to rain. The cottage wasn't tidy, it was dark, cold and very, very old. Then Lucy heard some voices. It was a little kitty. Then the kitty disappeared. Lucy was alone. In the morning Lucy went out of the cottage and went home.

It was a cold, dark night and there was a strong wind blowing, when someone was walking under the street. Then he heard something falling into the river. He started running and he came to the big house. He knocked at the door. Then he heard crying and shouting. He turned around and ran away. He was running, when he fell into the river. Then he saw a wolf eating a deer next to the river. Then he heard a voice saying: »Come here!« He followed the voice. He went into the dark forest, but he never came out.

Tjaša Gamser, Class 9

It was a warm, dark evening in summer, when I had to go to the bed. I thought it was going to be just another ordinary night, but I had never been so wrong before.

I woke up when I heard some strange voices. I looked out of the window and there was a strong wind blowing. I also heard our neighbour's dog barking, which was strange, because I didn't see anybody outside. I wanted to go to sleep, but just a few seconds later I heard my phone ringing. I looked at my clock and it was exactly midnight. I picked up the phone and I heard a high, clear woman voice singing and whispering something. I had a strange feeling she was standing right next to me, but there was nobody else in my room. I heard myself screaming and the woman on my phone laughing. I dropped my phone on the floor and went to my bed. I hid under my blanket and I still heard the woman laughing. I finally fell asleep.

I woke up next day and it was a beautiful morning. I knew I only had a nightmare until I saw my phone lying on the floor. My nights were never the same any more.

Živa Waldhütter, Class 9

It was a bright, sunny, day, there was a warm, gentle breeze blowing slowly, when a little cute kitty appeared. It started meowing. It wasn't annoying, but it was rather pleasant to hear. I quickly ran to it through the high green grass. It started running

towards me and jumped onto me. It was at that moment I realized everything wasn't as it seemed. The cat had dark, red eyes with a terrifying look on its face. It said in a dark, demonic-like voice: »Don't judge a book by its cover.« With its sharp, long claws it scratched deep into my arteries, in my wrists. I have felt a true agony, as I screamed loudly as never before, driving my vocal chords into exhaustion. I fell on the cold, solid ground. The high green grass wasn't there anymore. All I saw next to me was a vividly red, medium sized pond of blood - my own blood. I turned around, slowly and painfully trying to spot the demonic cat. It was there, it was gazing at me with its dark, bloody eyes with a big, creepy smile on its face. »Wakey, wakey,« it said. Suddenly I woke up, drowned in sweat, breathing heavily. My poor, tired heart was racing like my life was about to end. It just seemed so real. My mom rushed into my room saying: »Honey, hurry up! You'll miss school!« Relieved, I got out of the bed and prepared myself for school. Then, something jumped onto the window. I cheerfully went to the window only to see what I expected the least ... The creepy, bloody, terrifying cat from my dreams.

Tristan Hudales, Class 9

It was a warm, dark night and I was walking on the beach with my dog. There was a full moon. Around a pier there was a loud crowd dancing. The music was fantastic. But then I saw a crying girl, lying on a pillow in water. I ran into the water and I left my dog on the beach. I came to her, she was bleeding, the water was full of her blood. I screamed, but nobody heard me. A huge, cold arm touched me. I turned around. There was a young man looking like a vampire. I pushed him away. He asked me: »What's wrong, you screamed, didn't you?« I was surprised, he asked me what's wrong, an idiot. I started crying, I wanted to show him a girl, but she disappeared. I ran away, the man was following me. I escaped into the forest. When I stopped, the girl appeared in front of me. She had cold, blue

eyes and long, blond hair. I asked her: »Who are you? Aren't you bleeding? Is everything okay?« Someone grabbed me. I woke up on the beach. My dog was barking in the moon and I heard a police sirens. A man from my dream came to me. I screamed and I wanted to run away, but I couldn't. He told me that he found me. I broke my leg. He also told me that I broke it, when I was running in front of him. He saved the girl from water. The girl was drunk and she cut herself with a knife. So my adventure was in a creepy dream. Now the girl is lying in the hospital and I have a new friend, a very kind vampire. He is not a bad vampire, he also has a dog. We sometimes go for a walk on the beach together. My story ends happily.

It was a beautiful day. The weather was warm and the sun was shining. A short, thin and young boy was walking along a narrow and dirty road. Then suddenly the sky became very dark, there was a very strong wind blowing and it started to rain. The boy didn't want to get wet, so he had to find a shelter. He found it in a very big, cold and dark cave. There were a lot of horrible, black spiders on the webs. The boy was very afraid, because he heard very scary voices. There was a very big and hungry animal. It was a bear. When the boy saw it he started screaming and the big bear escaped out of the cave. The boy was very happy because he chased a very big animal.

FAMOUS PEOPLE

Introduction

Hello. My name is Živa Waldhütter and I'm a pupil in ninth class in primary school Jožeta Hudalesa. I live in Srednji Gasteraj with my mum, dad and a younger brother Gašper. We also have a dog. It's soft coated wheaten terrier and his name is Oskar. We have a cat too, and his name is Maks.

In my free time I play the piano and I love reading books. The hardest question for me is, what's my favourite book. I have about thirty of them and I love them all. As much as reading, I love cooking, too. You can ask my family about that. Next year I want to go to the First Gymnasium in Maribor. I think this is the best school for me, because they are offering great education. My friends in Maribor also told me, that First Gymnasium is really a great school.

At the moment I really don't know what I want to be when I grow up. When I was little I wanted to be an architect, but now I'm not sure about that. I just know that I love animals, history and working with children. For now I'm very confused about my future job. But the great news is, that I still have plenty of time to think about it.

I decided to describe one of my favourite American actors, musicians and producers. I have chosen him, because he's really great, funny and an amazing actor and because he played in my favourite film *Pirates of the Caribbean*. I love that film and my biggest wish is to get notes for the main song for the piano. I am sure you already know, about who am I going to talking about, so I hope

you'll like my presentation.

Man with different talents

John Christopher Depp was born on 9 June 1963 in Owensboro in Kentucky, a town that's sometimes called "the barbecue capital of the world." His father John senior was a city engineer and his mother Betty Sue was a waitress in a small coffee shop. He is the youngest of four children. He has one brother Daniel and two sisters, Christie and Debbie. The family moved very often so Johnny couldn't make a lot of friendships - they have moved as much as 20 times.

His music career started when he got a guitar from his mum for his twelfth birthday.

Depp's first guitar

He started to play with little garage bands, later he formed his first band called Flame. Because he wanted to be a rock musician, he left his school and went to Los Angeles. He was a member of a famous group called Rock City Angels for the short time, then he met and married a make-up artist Lori Anne Allison in 1983. She

Johnny Depp was a member of a famous group Rock City Angels.

introduced him to Nicolas Cage, and he advised him to start an acting career.

Johnny Depp as an actor

His first role was in television series called *21 Jump Street*. He accepted this role to work with an actor Frederic Forrest, who inspired him. Johnny's first film was *A nightmare on Elm Street*, where he played a boyfriend of a main actress. At the end of 1980, Johnny Depp became a big teen idol. He played in many different films, like *Cry Baby*, *Thrashin* and *Benny&Joon*. He was also nominated for the best actor of the year. He worked with many famous actors and actresses, like Sarah Jessica Parker, Leonardo DiCaprio, Angelina Jolie, Al Pacino and many others. His best films of all were *Alice in Wonderland*, *Charlie and the Chocolate Factory*, *The Tourist*, *Edward Scissorhands* and of course, *Pirates of the Caribbean*. He said that *Captain Jack Sparrow* is his favourite role of all the screen characters he has ever played. Acting Jack Sparrow made him richer for 55 millions dollars.

He has won the Golden Globe Award and Screen Actors Guild award for the best actor. Although he got a lot awards, he has never won an Oscar.

Family

Johnny Depp and his life partner Vanessa Paradis have lived together for twelve years. They have two children, twelve year old boy Jack John Christopher and fifteen year old Lily-Rose-Melody. The family has three houses. The first one is on their island in Bahamas, the second in Los Angeles and the third one is in France. They also have their own vineyard and their own restaurant named Rosa Rossa.

Wild Johnny

There are some things that make Johnny Depp a special man, film star and the father. When his daughter Lily-Rose-Melody turned nine, she fell seriously ill and her kidneys were endangered. She recovered at Great Ormond Street Hospital. Johnny Depp was so thankful that he visited the hospital dressed up like Captain Jack Sparrow and spent four hours reading stories to the sick children. He also donated two millions dollars to that hospital.

A British scientist David Legg,

who found a 505 million year old fossil, named it after Johnny Depp. Of course he was a big fan of Johnny Depp. This is something that we have in common.

He received many film awards, also for the most wicked person for his role as Sweeney Todd.

Canada

INTRODUCING PLACES

Canada is the second largest country in the world, but only 31 million people live there.

Canada is 9.976.140 km² big. It is situated in North America. The national languages are English and French. The capital city is Ottawa. The name of this country is formed from word *canata*, which means 'clean country'.

Canada has a lot of national symbols. There are a lot of national parks and natural attractions. In the north it is very cold so not many people live there. The only people who live there are Eskimos. These people live in wooden mountain huts. Some of them hunt animals, like seals and fish. Sometimes they build igloos to live in. They are dressed in furs.

<http://goo.gl/SEgkj9>

Eskimos are dressed in furs.

Canada is very popular. Many tourists come here. The main attractions are national parks like Banff and Jasper with glaciers and ice lakes.

People visit some cities, too. In Ottawa there are many beautiful galleries and national museums. The Québec is the oldest city in Canada. There is a famous carnival in February every year. In Toronto there is the biggest free-standing TV tower.

You can go skiing, canoeing, climbing, hiking, camping, fishing or riding a horse. You can also go to some interesting places, like Canada's Wonderland, Toronto zoo, Casa Loma, Butchart Gardens, Montreal Museum of Fine Arts, West Edmonton Mall, Bay of Fundy and many others.

A very beautiful attraction are Niagara falls. We can find them on the river Niagara. These are one of the best known falls in the world. Every year from 20 to 25 people die there. So far they have pulled more than 5 million people out from the Niagara river.

People in Canada work in factories, different companies, ships and in mines ... People work in forestry, mining, fishing, paper industry ... People do a lot of sports here, too. The national sports are hockey and polo.

Hi five pencil stand

CRAFTS

You will need :

- a stiff paper
- a pen
- a pair of scissors
- a stapler
- a plastic cup
- a glue
- some small decorations

Preparation:

Take a stiff coloured paper and draw your hand on it.

Then cut out fingers. Leave enough paper under the hand because you will have to wrap it around a plastic cup later.

Decorate a hand you cut out and/or write something on it.

Now take the plastic cup and wrap the paper around it.

Then take a stapler and staple the paper and the cup together.

You can put pens, scissors, glue and things like that in this stand.

What do you think? Do you like it?

Hola! / Buenos dias = Hello / Good afternoon!

Como estas? = How are you?

Bien / Mal = Good / Bad.

Gracias = Thank you

Como te llamas? = What's your name?

Soy (el nombre) y vivo en Eslovenia. = I'm (name) and I come from Slovenia.

Qual ciudad es el capital de Espana? Madrid. = What's the capital of Spain? Madrid.

Which are the main sights of Barcelona? A church Sagrada Familia, a park Guell, a beach Barceloneta, a street Rambla, a market-hall Boqueria and, of course, a football club Barcelona and his stadium Camp Nou.

Solo unos dias mas y va ser el fin de las clases en escuela. = A few more days and the school year will be over.

Nos vamos al vacaciones! = We are going on vacations!

Que vas a ser en tus vacaciones? Me voy al mar, voy a disfrutar con mis amigos y por unos dias me ire a mi abuela y abuelo. = What are you going to do during your holidays? I'm going to the sea, I will have fun with my friends and I'm going to spend a few days with my grandma and grandpa.

Nos vemos! Adios! = See you soon! Bye!

Löwe

Der Löwe ist ein Säugetier. Er ist warmblütig. Die Jungen trinken Muttermilch.

Der Löwe ist eine Art der Katzen. Er ist zweitgrößte Katze. Sein Körper ist hellbraun und seine Mähne ist dunkelbraun. Er hat Zähne, Pfoten, schöne Mähne und einen Schwanz.

Sein Schwanz ist bis 1 Meter lang. Er wiegt bis 250 Kilo. Er lebt 20 Jahre. Er schläft ungefähr 11 Stunden pro Nacht und Tag.

Er frisst Fleisch und er trinkt Wasser.

Er kann brüllen, schwimmen, klettern, laufen, springen. Er kann nicht fliegen. Brüllen kann man 8 km weit hören.

Männchen und Weibchen sind unterschiedlich.

Das Männchen wächst bis 2,5 Meter und das Weibchen ist etwas kürzer und leichter.

Das Männchen hat die Mähne. Das Weibchen hat keine Mähne. Der Löwe ist der König der Tiere.

Löwen oft kratzen die Bäume.

Der Löwe lebt in Afrika und Asien und zwar in der Gruppe. In der Gruppe sind ungefähr 12 Löwen. Anführer der Gruppe sind ein oder zwei Männer mit Weibchen.

Das Weibchen hat bis zu sechs Junge Löwen.

Das Weibchen spielt mit ihren Jungen.

Weibchen fangen das Essen. Sie essen Zebras, Büffel und Kaninchen. Die Löwen sind dem Menschen nicht gefährlich.

Mir gefällt ihre Körperfarbe und Mähne.

Meine Freundin

Meine Freundin Tjaša ist 14 Jahre alt. Sie lebt in Jurovski Dol mit ihren Eltern und ihrer Schwester Nika. Sie besucht die Grundschule OŠ J. Hudalesa Jurovski Dol. Ihre Hobbys sind Ski fahren und Malen.

Sie ist nicht sehr groß, kleiner als ich. Sie hat grüne Augen und lange, braune, lockige Haare.

Malen

<http://goo.gl/m5OAZf>

Sie hat ein ovales Gesicht und eine runde Nase.

Ihre Lieblingskleidung sind Leggings, Sweatshirts und Sportschuhe. Ihr Lieblingstier ist ein Tiger.

Meine Freundin mag Tiger.

26. September, Tag der Sprachen in Europa

26. September, Tag der Sprachen in Europa

Jedes Jahr feiert man den »Tag der Sprachen« am 26. September in Europa. Unsere Klasse hat auch dieses Jahr etwas vorbereitet. Wir sind in den Computerraum gegangen und jeder hat über eine Stadt einen Bericht geschrieben. Wir haben viele berühmte Städte ausgewählt, wie zum Beispiel: Madrid, Paris, Maribor, London und noch viele andere. Einige haben auch Gruppen von zwei Schülern gebildet und zwei haben mehrere Städte beschrieben.

Sie haben mit Hilfe unserer Lehrerin im Internet gesucht und viele Informationen gefunden. Es wurden interessante Daten ausge-

schrieben wie Sehenswürdigkeiten, die Landeswappen und noch andere interessante Sachen gefunden. Wir hoffen den Lesern das gefallen wird. Ich wünsche euch viel Spaß beim Lesen.

Europäischer Tag der Sprachen

Der 26. September ist der europäische Tag der Sprachen. Im Deutschunterricht haben wir über Sprachen gesprochen. Unsere Lehrerin hat einen Studenten als Gast eingeladen. Er hat uns die Spanische und Chinesische Sprache vorgestellt. Wir haben Übungen an der Tafel gemacht, Dialoge gespielt, Zahlen ausgesprochen und wir spielten Spiele an

der Tafel.

(Wir mussten die Zahlen von 1 bis 10 anordnen). Wir haben rausgefunden, wie viele Menschen die meist gesprochene Sprache als Muttersprache sprechen. Es war sehr toll, interessant und der Unterricht war anders. Das war eine positive Erfahrung.

Gesund leben

Ich bin jetzt 14 Jahre alt und ich möchte gesund leben. Ich stehe um 6.15 Uhr auf. Ich habe Frühstück um 6.30 Uhr. Ich trinke Milch und ich esse eine Scheibe Brot dazu. Dann gehe ich mit dem Bus zur Schule. In der Schule habe ich auch Mittagessen. Das ist um 12.35 Uhr. Nach Hause gehe ich um 15.00 Uhr. Zu Hause mache ich Hausaufgaben und dann spiele ich mit meinen Tieren. Ich spiele mit meiner Ziege. Manchmal fahre ich Rad. Um 20.30 Uhr gehe ich schlafen.

Man soll viel Sport treiben um gesund zu bleiben. Rechtzeitig ins Bett gehen ist auch gesund. Aber ungesund ist Rauchen, Alkohol oder Kaffee trinken. Manche Leute essen zu viel Pommes frites oder Süßigkeiten.

Wir sollen auch nicht so viel im Haus sein und Computer spielen.

Wir sollen nicht so viel im Haus sein und Computer spielen.

Draußen gibt es die frische Luft und dort können wir unsere Freizeit genießen. Man kann Sport treiben oder spazieren gehen.

Ich und meine Zukunft

Ich bin Lucija. Ich bin am 3. November 2000 geboren und jetzt bin ich 14 Jahre alt. Ich bin groß.

Ich habe braune Haare und braune Augen. Ich bin eine hilfsbereite, launische und lustige Person. Am Montag und Mittwoch besuche ich die Musikschule. Ich spiele eine Flöte und im Juni werde ich die Musikschule abschließen.

Ich teile mein Zimmer mit meiner Schwester. Es ist groß, praktisch und blau. Wir haben dort zwei Tische, einen Computer, zwei Bette, einen Fernseher, zwei Schränke, einen Teppich und viele Bücher. Dort mache ich Hausaufgaben, schreibe E-Mails, surfe im Internet, höre Musik und schlafe.

Ich wohne mit meiner Familie in Zgornje Partinje 145 a. Wir sind vier zu Hause: meine Schwester, meine Mutter, mein Vater und ich. Meine Schwester heißt Nika. Sie ist 12 Jahre alt. Sie besucht die 6. Klasse. Meine Mutter heißt Andreja und sie ist 39 Jahre alt. Mein Vater heißt Zdravko und er ist 43 Jahre alt. Wir haben eine Hündin. Sie heißt Kitty. Sie ist ein Mischling.

Ich werde einen Beruf vorstellen. Das ist Arzt.

Er ist eine hilfsbereite, kontaktfreudige und tolerante Person. Er hilft Patienten, wenn sie krank sind. Ein Arzt arbeitet im Krankenhaus oder im Gesundheitszentrum. Er hat immer einen Arztkittel an.

Eine Krankenschwester hilft ihm und sie nimmt Krankenversicherungskarte von Patienten und bereitet eine Patientenkartei vor. Sie hat eine blauen Hose und blaues T-Shirt an. Ein Arzt hat Patienten mit Bauchschmerzen, Ohrenschmerzen, Kreuzschmerzen und mit Schmerzen in den Beinen. Er braucht einen Stethoskop für die Lunge und das Herz, ein Keh-

kopfspiegel für Rachenuntersuchung und ein Lämpchen für Ohren. Wenn Patienten zu ihm kommen, heilt er sie und schreibt ihnen die Verschreibung für die Medikamente. Dann gehen sie in die Apotheke wo sie das alles bekommen.

Ich finde die Arbeit eines Arztes interessant aber auch schwer, weil er alle Krankheiten kennen muss.

Der Arzt

Meine Schule heißt OŠ J. Hudalec Jurovski Dol. Jetzt besuche ich die 9. Klasse. Im September werde ich die Medizinische Schule in Maribor besuchen. Ich werde eine Krankenschwester sein und später werde ich eine Physiotherapeutin sein.

Im Juli und August werde ich meinen Cousin achten und in den Ferien werde ich auch mit meiner Familie in die Terme gehen.

Im Jahr 2020 werde ich im Krankenhaus arbeiten und Patienten helfen. Vielleicht werde ich Medizin studieren und eine Physiotherapeutin oder eine Ärztin sein.

Dear Class 9,

this is the end. Fortunately, just the end of your primary school story. Today I am proud I was a part of it.

The forthcoming end gives you the opportunity for new challenges, invites you to discover yet undiscovered, meet new people, experience the extraordinary.

Don't hesitate to accept the invitation.

Farewell, my eldest!
